

SENTENCE OF CHECK FORGER SUSPENDED

Ralph Gurley of Milroy Pleads Guilty on Grand Jury Indictment and is Free on Good Behavior

CONNERSVILLE MAN ON BOND

Walter Matthews Indicted as Result of Accident East of Carthage Few Weeks Ago

Two more grand jury indictments were served today, being against Ralph Gurley of Milroy, charged with forgery, and Walter Matthews of Connersville, charged with assault and battery and failing to give his name after an automobile accident.

Gurley, who gave his age as 24, has been in jail for several weeks, following his arrest by Clyde Kitchen of Milroy. He was accused of giving a check forged on his father-in-law, Mr. Jackson of Milroy.

He admitted his guilt, and was fined \$1 and costs and his sentence of from 2 to 14 years was suspended during good behavior. The plea for clemency was asked by Mr. Kitchen and other citizens of Milroy, who were interested in the youth, and wanted him to have a chance. The young man has a wife and two small children, and granting the plea for clemency, Judge Sparks told Gurley to leave Milroy and take up residence in some other community.

Walter Matthews of Connersville appeared in court on summons issued on a grand jury indictment, charging him with assault and battery and failing to give his name and address following an automobile accident in which injury was done.

He entered no plea and provided \$200 bond for his appearance when the case is set for trial. The indictment in two counts is based on an automobile accident east of Carthage several weeks ago, when a machine driven by Matthews and B. O. Simpson of Rushville were in collision. The Simpson machine was badly damaged and occupants injured. It is charged that Matthews left the scene of the accident immediately after the wreck, and failed to leave his name and address, and it was necessary for state police to conduct a search for him, as his car was traced by means of a Connersville name plate.

With the release of Gurley from jail, the big list of prisoners have been reduced to one—Paul Spacey. Sheriff Hunt took three prisoners to Pendleton late yesterday. Spacey is charged in various counts, and will be given a trial in a few days.

HIGH WIND STORM SWEEPS ACROSS STATE

Extensive Damage Reported in Three Cities, Sullivan and Kokomo Being Most Seriously Affected

CLOUD FRIGHTENS PEOPLE

(By United Press)

Indianapolis, Ind., April 14—Considerable property damage was reported in three cities of Indiana today from a high wind storm which swept across the state late yesterday.

Houses were unroofed, trees were uprooted and telephone and telegraph poles were blown down by the twister.

Most damage was done at Sullivan and Kokomo. A few houses were unroofed at Fort Wayne.

Citizens of Sullivan were panic-stricken when they saw the storm clouds approaching. The cloud was a typical conical twister, and the recent disaster in southern Indiana and Illinois was recalled.

The twister was travelling at a high altitude and dipped down just enough to strike one corner of the town.

More than a dozen houses were unroofed at Kokomo and several buildings were blown from their foundations.

Warsaw, Ind., April 14—Survey of damage done by a cyclone that struck Kosciusko county late Monday showed today that it will run into several thousands of dollars.

FOLLOWS DEATH WITHIN 3 WEEKS

Mrs. Mary Stamm, Age 67, Widow of Howard Stamm, Dies This Morning of Paralysis

STRICKEN FOUR WEEKS AGO

Mrs. Mary Stamm, widow of Howard Stamm, died this morning at 9:30 o'clock at the family home, 522 West First street, following her husband in death by three weeks.

Mrs. Stamm was stricken with paralysis four weeks ago, and was ill when her husband died after a brief illness. The shock of his death, hastened her death, and she had been seriously ill for several days. She was 67 years of age.

The deceased is survived by seven children. They are Carg Stamm, William Stamm and Miss Ella Stamm, all living in this city; John Howard Stamm of Newcastle; Mrs. Clyde Root of Martinsville; Mrs. Blaine Hunt of Indianapolis and Mrs. Byron Frazier of Connersville. The funeral arrangements were not completed today and will be announced tomorrow.

OBERHOLTZER GIRL DIES OF POISONING

Alleged to Have Been Attacked by D. C. Stephenson in Train, After Which She Took Poison

UNCONSCIOUS FOR TWO WEEKS

Stephenson Leaves Office 15 Minutes After Girl Dies and His Whereabouts are Unknown

(By United Press)

Indianapolis, Ind., April 14—Miss Madge Oberholzer, 28, whom D. C. Stephenson, former leader of the Ku Klux Klan, is alleged to have attacked, died at her home here today. Stephenson was charged with assaulting the girl on a midnight ride to Hammond, Indiana, in a pullman car compartment.

The girl is said to have swallowed poison following the attack. She has been unconscious since the alleged attack two weeks ago.

After Miss Oberholzer had been returned to her home here, her father filed charges against Stephenson, who was indicted subsequently by the Marion grand jury on five counts. Stephenson was freed under bond, after a determined effort had been made to hold him without bail, the judge asserting bail would be refused only in case of murder.

Prosecutor William E. Remy and Charles E. Cox, attorney for the dead woman, went into conference immediately following the girl's death, to consider whether they will demand a change in the indictment against Stephenson to a charge of murder. Cox had announced several days ago that that course would be pursued in event of her death.

Stephenson left his office about 10:15 a. m., just fifteen minutes after the girl's death. He did not tell the employees of his office where he was going and he had not returned shortly after noon.

The indictment confronting him Continued on Page Two

TELLING STORY TO SCHOOLS

Naomi Nash on Tour Describing Experiences in "Legislature"

Miss Naomi Nash of the Ging high school, who recently represented the county schools in the Junior General assembly at Indianapolis, has started on her tour of the county schools, relating her experiences in the state legislature. Miss Nash is being accompanied by B. D. Farthing, county school superintendent. Four schools were visited today and four will be visited Wednesday. She will then complete the tour on April 21 and 22, visiting the remaining schools.

Miss Nash profited very much by her experience as a member of the junior law making body, and has prepared an interesting, detailed report of the activities of the young law makers, which she is carrying to all pupils.

CLASS IN BUGOLOGY WILL NOW COME TO ORDER

Day of Penny Postal Souvenir Cards Goes Out With New Rates in Effect

Postage Increases do Not Apply to Government Cards, But to Those Made by Individuals and Firms. New Rates Also Increase Fees For Money Orders, C. O. D. Charges, Registries, And All Other Classes of Mail Matter.

"Having a fine time. Wish you were here."

We shall have to pay two cents for the privilege of sending this rather hackneyed message on a souvenir post card this summer, when we are taking our vacation. The new postal bill, approved February 26 by congress, becomes effective Wednesday.

The new postal bill not only provides for increases in wages for postal employees, but increased among other things, the rate on private mailing cards to two cents.

A summary of the new postal bill, is as follows: Private mailing-cards, 2 cents each; the old rate was 1 cent. Government cards remain at 1 cent.

Those who are in the habit of sending single copies of newspapers and magazines will find that the new rate of postage on publications entered as second-class matter "when sent by others than the publisher or news agent", shall be 2 cents for each 2 ounces or fraction thereof for weights not exceeding 8 ounces "the rates of postage prescribed for fourth-class matter shall be applicable thereto." The present rate is 1 cent for each 4 ounces.

The former rate for third-class mail was 1 cent for each 2 ounces up to 4 pounds. Third-class mail will not include merchandise, which formerly was fourth-class. The new third-class rate is 11 cents for each 2 ounces up to 8 ounces, except on books, catalogs, seeds, cuttings, bulbs, roots, scions, and plants not exceeding 8 ounces, on which the rate is 1 cent for each 2 ounces.

All matter over 8 ounces which is not included in the other classes is not fourth-class mail. The basic rates remain as at present. The new bill, however, adds a flat 2-cent service charge to each package, and provides a "special handling" charge of 25 cents that is optional. This entitles such mail matter to the same expeditious transportation, handling, and delivery accorded to mail matter of the first class. There were no such provisions under the old law.

Money-order fees have been raised from 3 cents to 5; from 5 cents to 7; from 8 cents to 10; from 10 cents to 12; from 12 cents to 15

cents. The 18-cent fee remains the same, the 20-cent fee is reduced to 18, the 25-cent fee to 20, and the 30-cent fee to 22. Whereas the old registry fee was \$50, and 20 cents for an indemnity up to \$100, the new law provides that not less than 15

TO HONOR BUILDER OF THE FIRST AUTO

Automobile Factories and Accessory Plants Called on to Cease Work During Haynes Funeral

ATTACK FOLLOWS INFLUENZA

"Father of the Horseless Carriage" Built First Machine in Kokomo in 1894

(By United Press)

Kokomo, Ind., April 14—Mayor Burrows of Kokomo today sent out a proclamation calling on automobile factories and accessory plants throughout the country to cease work during the funeral of Elwood Haynes, "father of the horseless carriage."

Time of the fun. I will be announced today. It is expected to be held at the Haynes home here.

Haynes, who was 68 years old, died last night from heart trouble that followed an attack of influenza several weeks ago. After the attack of influenza, Haynes went south for his health but hastened home when advised that his condition was serious.

Only the members of his immediate family knew his critical illness until physicians announced during the day yesterday that he could not recover.

Haynes built his first automobile in 1894 after two years of experiment with various types of engines. On July 4, 1894, he had the "horseless carriage" towed a few miles out of Kokomo behind a horse and buggy.

Casting off the tow rope, Haynes triumphantly piloted the machine back to town at a speed of eight miles an hour.

The machine was the first auto built in the United States, and is now preserved in the Smithsonian Institute at Washington.

A short time later Haynes organized the Haynes automobile com-

INFANT HYGIENE LECTURES PLANNED

Series of Five Will be Given in The County Under Direction of Health Board Division

ONE EACH WEEK ANNOUNCED

N. Maude Arthur, M. D., and Miss Evaline Renwick, R. N. to Give Lectures And Demonstrations

A series of lectures and demonstrations for women will be given in Rush county, beginning the week of April 27 and continue until the week of May 29, inclusive, under the auspices of the division of infant and child hygiene of the Indiana state board of health.

The lectures and demonstrations will be N. Maude Arthur, M. D., and Miss Evaline Renwick, R. N. Dr. Arthur will lecture the first, third and fifth week and the last week motion pictures free to the general public will be given. Miss Renwick will lecture and demonstrate the second and fourth weeks. The exact time and place of the meetings will be announced later.

Because so many women do not understand the scientific basis of mother care, a course of instruction in the essentials of such care has been prepared by the child hygiene division of the state board. It is hoped to impress prospective parents with the importance of safeguarding in every possible way Indiana mothers and babies.

"To illustrate—in many cases temporary teeth are soft and soon decay because of calcium deficiency of the expectant mother," says Ada E. Schweitzer, director of the division. "Had this lack been recognized in early pregnancy, much might have been done to insure soundness of teeth which were to erupt anywhere from 5 to 10 months after birth. The antenatal needs of the baby are quite as important as the postnatal needs and should be much more general understood."

"In the first series of 5 lessons, the first explains in a general way antenatal growth and development and the reasons for medical supervision from the beginning of pregnancy. In other words, the protection of the woman all along her nine month's journey instead of just at the end."

"Those who sign for the five weeks course (one lesson a week) are asked only to come regularly and to keep note books and to ask questions which the doctor and

SAYS WIFE POINTED A REVOLVER AT HIM

Duward B. Gilson Charges in Divorce Complaint Edna M. Gilson Threatened his Life

NEGLECTED HER CHILDREN

In a complaint filed for divorce in the circuit court, Duward B. Gilson charges his wife, Edna M. Gilson, with having a high temper, and had pointed a revolver at him, threatening to shoot him.

The couple was married in February, 1922, and separated in February of this year, according to the suit, and lived in Knightstown, and in the extreme north end of Rush county, adjoining Knightstown.

In his complaint, he sets out that she had an ungovernable temper, spent a great deal of her time on the streets at Knightstown and neglected their two small children and her home. He is a traveling salesman, according to the action, and his complaint demands a divorce, and also seeks to have the court make proper arrangements concerning the custody of the children.

In the case of Charles Beeson against Floyd Porter, the evidence has been heard by Judge Sparks, and judgment rendered for \$56.25 on a note.

ROTARY DIRECTORS SELECT OFFICERS

George J. Griesser is Chosen President and D. D. Ball is Re-elected Secretary

FOLLOWING NOON MEETING

Fred Bell Describes Scene at Norris Farm Monday—Dr. J. J. Rea of Richmond Speaks

Following the regular meeting of the Rotary club today noon at the Odd Fellows Temple, the board of directors chosen last week met and organized by electing George J. Griesser as president, John A. Tittsworth, vice president, and Glen Foster, treasurer, and re-elected Donald D. Ball secretary and Jack Knecht, sergeant-at-arms. They will take office May 1.

Fred Bell described the scene on the Lowell Norris farm southeast of Rushville Monday when forty neighbors, with 74 head of horses and fourteen tractors, did Mr. Norris' spring plowing and prepared the ground for planting.

"There wasn't a man there," said Mr. Bell, "who did not enjoy the day's work many times more than if he had been doing his own. It was a demonstration of friendly sympathy that communities like Noble township really have."

He commented on the marvelous sight that such a crowd of farmers and equipment presented and likened them to a flock of crows, because they could be seen everywhere.

"From what observations I have made," Mr. Bell added in closing, "whenever I have been outside Rush county, there are no people to be found that quite measure up to those who live here when it comes to genuine friendliness and community spirit."

John A. Tittsworth arose to say a word in favor of his home town.

FOR 75 MILES OF STATE ROADS

State Highway Commission Opens Bids for Eleven Projects

Indianapolis, Ind., April 14—The state highway commission today opened bids for improving 75 miles of state roads.

The bids were for surface on twenty-five miles.

The projects are in Lawrence, Harrison, Floyd, Monroe, Clark, Adams, Allen, Wells, Henry, Delaware, Grant, Ohio, and Dearborn. They are located on roads Nos. 21, 13, 33, 11, 35, 27, 40, 4, 5, 22, and 38.

The work is to be completed by November 15.

RUSHVILLE PASTOR IS NEW MODERATOR

The Rev. Gibson Wilson is Elected Head of Whitewater Presbytery at First Session

MEETING CONTINUES TODAY

Dr. M. F. Smith, Pastor of First Church in Indianapolis, Delivers Opening Sermon

The Rev. Gibson Wilson, pastor of the First Presbyterian church, was elected moderator of the Whitewater presbytery, which is holding the stated spring meeting here, at the business meeting at the close of the opening session Monday evening. He succeeds the Rev. Forrest C. Taylor of Lawrenceburg.

The Rev. Mr. Wilson's term is for the ensuing year. The Rev. H. E. Harris of Lewisville was elected temporary clerk. The Rev. James S. E. McMichael of Connersville has been stated clerk during the past year.

The session continued throughout the day, opening this morning at 8:45 and continuing this afternoon at one o'clock, after a noon recess.

About twenty ministers and an equal number of elders were present from the eight counties included in the presbytery, and a number from the local congregation were present for Monday night's session when the presbytery was constituted and the opening sermon was delivered by the Rev. Matthew F. Smith, D. D., pastor of the First Presbyterian church of Indianapolis.

Special music was provided by the choir of the Rushville church and the invocation was pronounced by the Rev. J. J. Rea, D. D., pastor of the Richmond church. The scripture lesson was read by the Rev. R. Dale LeCount, pastor of the Knightstown church, followed with prayer by the Rev. H. E. Harris of the Lewisville church.

The subject of Dr. Smith's sermon was "The Urgency of the Gospel," and he took for his text Luke, 14:23, "Go out into the highways and hedges, and compel them to come in." Dr. Smith pointed out how the command had been given to spread the gospel to the far corners of the earth and the responsibility that rests upon the church and all followers.

WORLD OUTLOOK WEEK IS TO BE OBSERVED

Three Group Meetings Planned to Include Every Member of First Baptist Church

TO PRESENT CHURCH NEEDS

A special feature of the program of the First Baptist Church this week will be the observance of "World Outlook Week." Three group meetings are planned to include every member of the church. Beginning Wednesday afternoon at 2 o'clock will be the meeting of the women, presided over by Mrs. R. W. Sage, president of the Missionary Society. The meeting will be in the form of a missionary tea, and will include an interesting presentation of the accomplishments of Baptist missionary endeavor.

At 6:45 Wednesday evening the men's group will meet for supper in the basement of the church. Wilbur Mahin, president of the Brotherhood, will preside, and Raymond Clarkson will have charge of a special program. Every man of the church is urged to be present. Beside an interesting program, definite plans will be made for the perfecting of the organization of the Brotherhood, and a regular meeting night will be decided upon. No man of the congregation can afford to miss this meeting.

Young people of the church will meet in their group on Friday night, and a more definite announcement of their meeting will appear later.

The purpose of "World Outlook Week" is to bring to every church in the Northern Baptist Convention information as to the needs of the missionary societies and boards, and to challenge every church to its best efforts to meet its share of responsibility.

RUSHVILLE PASTOR IS NEW MODERATOR

Continued from Page One

Following the sermon, the presbytery was constituted with prayer by the retiring moderator and roll was called of the churches in the presbytery. This was followed with the election of officers.

Today's sessions were devoted largely to routine business, which included reports from the trustees, the presbyterial treasurer and various departments.

Devotional exercises were conducted by the Rev. John Garrettson, the new pastor at Aurora, and at ten o'clock the report of the department of home missions was given by Dr. Rea Commissioners of the assembly were nominated this morning and the session closed with a report on the department of Christian education by the Rev. David R. Moore.

Scheduled for this afternoon were the following reports: department of spiritual resources, the Rev. J. R. Bardemeier; department of foreign missions, the Rev. A. E. Ewers, D. D. of Greensburg; department of vacancy and supply, the Rev. Mr. Bardemeier.

Election of assembly commissioners to represent the presbytery at Columbus, Ohio, when the general assembly meets in May, was to take place at two o'clock, and at three o'clock the final report, one on the department of sessional records, was to be made by Rev. F. C. Taylor.

Through the work of the child hygiene division along this line, mother deaths and infant deaths in Indiana are showing a decrease. Deaths of mothers in the state during 1923 were 392 and last year the number was reduced to 364. Infants under one year of age dying in the state in 1923 totalled 4630 and last year the deaths of infants of this age were less, numbering 4429.

NEW ACTS WILL BE READY BY APRIL 28

When They Are Distributed Among Counties, Governor Will Proclaim Them in Effect

SOME NEW LAWS IN EFFECT

New Prohibition Code, "Blue Sky" Act and Garnishee Act Yet to Become Effective

(By United Press)

Indianapolis, Ind., April 14—The 136 laws out of 218 enacted by the 1925 legislature which do not bear emergency clauses were expected today by Charles Kettleborough, head of the state legislative reference bureau to go into effect about April 28.

Copies of the 1923 acts are being printed and bound now and are being sent out to the ninety-two counties in the state. Vanderburgh and Stueben counties will be sent their copies first.

These counties are farthest away. The remainder of the acts will be sent to those closer in and the counties nearest Indianapolis will be sent their copies last in order that all counties may receive their copies as nearly the same time as possible.

Approximately 37,000 copies of the acts are to be distributed.

When all are distributed and re-ceived for the Governor will issue a proclamation declaring them in effect.

Most important among the acts to go into effect at that time are the new prohibition code, the "blue sky" act, and the garnishee act.

Other acts include those providing for a state budget advisory committee, diversion of all state fees into the general fund, diversion of special levies into the general fund, consolidation of the state library, state law library, legislative reference bureau and the state historical department into one department, a bureau of agricultural statistics, abolishment of trustees of the state feeble minded colony, public school nutrition course, recodification of the weights and measures law, licensing of firearm dealers and pistol permits, and public service commission control of motor busses.

Give the Auto Its Due

John H. Mueller, professor of sociology at Chicago university, has laid down a severe indictment of the automobile. It takes the high school and college student from the home group and makes him an enemy of society, the professor says.

Perhaps the auto is a disturbing element in society, but never forget that it takes two to make a bargain. The auto is a temptation leading to evil ways that some young people can't resist, and it becomes the duty of those who are guiding boys and girls to build up a resistance against it.

Complaining about the bad influence of the automobile does not remove it as a factor to be dealt with in the rearing of children. It is a real problem, the more so because it can't be automatically removed.

The automobile is here to stay. It can't be driven out as the open saloon was, because it has economic and social values that far outweigh the evils that are laid at its door.

Regardless of what may be said regarding the bad habits it is teaching people, young and old alike, the

automobile has had a beneficial influence on many homes.

The family car, though it may have flattened the family purse, has broadened the viewpoint and increased the knowledge of countless persons. It has enabled people of small means to get a liberal education through travel. It has taken people into the fresh air, where they have found their first contact with outdoor things. It has changed the courses of many lives by cultivating outdoor habits and an appreciation of nature and all its beauties.

The automobile isn't perfect, of course, since it is only the product of man's genius, but it is not wholly disreputable, though it may be acquiring a bad reputation for leading young people into paths they should not follow.

Purebred vs Scrub

About 62 percent of purebred livestock is marketed directly for meat purposes.

Purebred meat animals cost slightly less than scrubs to raise to maturity; purebred dairy cattle cost slightly more.

Only about one-half of the purebred animals in the country eligible to registration are actually registered.

Purebreds are much more profitable to raise than scrubs, and somewhat more so than grades, the degree depending on the proportion of pure blood the grades possess.

About 56 percent of persons who give the use of purebred sires a fair trial stick to the general principle of using them for all classes of stock.

Improving the quality of purebred livestock by rigid culling and by selling only worthy animals for breeding purposes is urged and also is being practiced by progressive farmers.

These statements are based on the results of a questionnaire inquiry, covering 45 States, conducted by the bureau of animal industry, United States department of Agriculture. The evidence clearly is in favor of purebred stock and farmers who have followed this course know that profits from the same amount of labor are larger than wasting time with scrubs.

Hunt's Washington Letter

BY HARRY B. HUNT
NEA Service Writer

WASHINGTON—When the processes of the law become so involved that the government itself cannot follow them, it would seem to the layman that the time had come for some simplified and commonsense rules of procedure.

Contempt for the law, about which public authorities complain so bitterly, is helped, not hindered, by the spectacle of such denouements as came in the government's prosecution of the criminal indictments against Fall, Sinclair and "great oil scandal."

The indictments were quashed by Chief Justice Mc Coy of the District Supreme Court, not because of any question of fact in the evidence submitted to the grand jury, but because of the presence at the grand jury hearings of a representative of the Department of Justice.

The only possible conclusion is that the Department of Justice itself cannot tell, under the involved and intricate technicalities that have come to surround grand jury procedure, when it should and when it should not take a hand in presenting evidence for prosecution. Any other conclusion would mean that the department deliberately acted in a way to jeopardize the validity of the indictments; that the department was directly seeking to thwart, not to obtain justice.

ANYHOW, Assistant Attorney General Oliver Pagan was present as an assistant to the special counsel appointed by President Coolidge to prosecute the oil cases, and Mc Coy holds he ought not have been there. The indictments are voided on this ground alone.

In the meantime—a full year having passed—since the indictments were returned—the statute of limitations has expired on the charges of bribery on which two of the indictments were based. If,

on appeal, the action of Justice Mc Coy is sustained, the government will, by the action of one of its assistant attorney generals, have lost the right to press these bribery charges further.

The whole cause of justice, therefore, rests not on the fact of bribery or lack of it, but on a technicality which bars the way to any trial on the real facts. And in this case the government itself, set up the technicality which thwarted its own prosecution.

SPEAKING of bribery—Democrats suggest that actually, though not morally or legally, some such influence was responsible for the Dorchester county, Maryland, going Republican for the first time in its history last November.

As the story goes, the presidential yacht Mayflower, on one of Coolidge's week-end trips last fall, put in at Cambridge, Md., on lower Chesapeake bay one Sunday morning. The president and his party debarked and made their way to church to attend services. When the collection plate was passed, Coolidge put into it a crisp new \$5 bill.

The church authorities, proud of the visit by the presidential party, seeking some tangible token by which the memory of the visit could be perpetuated, pounced upon that \$5. Instead of being turned into the treasury it was properly labeled, framed, and hung in the vestry room. There it was inspected by not only all of Cambridge, but by hundreds of visitors from the back country who visited the county seat prior to election. The Coolidge contribution became a lodestone that drew Democrats and Republicans alike. Many who came skeptical and scoffing, went away in reverence.

Yes, it was true, they spread the word. Five whole dollars, right out of the presidential pocket! The result, according to the Democratic alibi experts, was the carrying of Dorchester county at a personal cost to the president of one \$5 bill!

A SCHOOL BOY'S SWEETHEART

By OTTIS CRAWFORD

I learned to say my A. B. C's. When I was very small, In a little school house beneath the trees, That grew both big and tall.

At first I thought it mighty tough For a little boy like I, To have to learn such a lot of stuff, Which seemed so awful dry.

My eyes would wander from my book, I'd twist and squirm and smile, Quite often I would steal a look At the girl across the aisle.

I'd write her name upon each page, And carve her initials on the sly, For to a boy of just my age, She looked like an angel from the sky.

The best of friends we learned to be, And later, sweethearts true, And ever since I'm sure that she Taught me a lesson to keep in view.

On evenings when we had to walk, We never were in hate, We'd just stroll along and talk, With my arm around her waist.

We strolled along for many years, Ah, but I loved that little Miss, Although she soundly boxed my ears Every time I stole a kiss.

I was proud to call her sweetheart, In those school boy days of mine, Because her image filled my heart, With a love that was divine.

Since then I've grown to man's estate, And see life in different ways, But still I'm sure that it was great, To have a sweetheart in school boy days.

SENATORS MAY BE CONTENDER AGAIN

Washington Team Showed Great Form in Preliminary Games with New York Giants

MAY WORRY JOHN MCGRAW

New York Team is Weak on Pitching End, According to Spring Training Results

By HENRY L. FARRELL
(U. P. Staff Correspondent)

New York, April 14—Form shown by the Washington Senators in the spring world's series against the New York Giants may change the calculations of some of the experts who have been counting the world's champions out of the 1925 pennant race.

The Senators did no better than break even in a 12 game series with the Giants but that was fair enough. In a way it proved that the world's series last fall was true to form because the Senators became the world's champions on two very lucky breaks in the final game when two badly bunting balls went over the head of little Freddie Lindstrom.

John McGraw and those who have been figuring on a certain Giant victory in the National League will have some cause for concern over the form shown by the New York pitchers since they returned from the south.

In the two games played here against the Senators, it looks like McGraw has only one dependable pitcher—old reliable Art Nehf.

Hugh McQuillan took an awful beating from the Senators in the first game here, and Jack Scott who had been advertised as the comeback savior of the staff didn't last any inning in the second game.

With Frisch, Groh and Lindstrom laid up the Giants were badly handicapped in the two games that might have given them the series against the Senators but it must be remembered that in deciding games of the world's series the Washington club was just as weak on the defensive with Peck out of the game and Miller on third base.

The strengthened reserve force of the Senators was shown yesterday when Bucky Harris was tossed out of the game by umpire Walker before he was in it officially. Instead of calling upon Mike McNally, the former Yankee, who was picked up as a minute man, the Senators shoved a youngster, Adams, into the game and he did very well. The Senators also uncovered a young pitcher, Harry Kelly, who may go somewhere in fast company.

The Yankees, on the other hand, showed fine form in finishing the series with the strong Brooklyn Robins with a 10 games to seven victory. The Yankee pitchers seem to be in great form and pitching is a good sixty per cent of the Yankee strength.

Brooklyn and Pittsburgh Choice of Few Experts—Law of Averages Against Giants

By HENRY L. FARRELL
(U. P. Staff Correspondent)

New York, April 14—New York and Detroit, in a consensus vote of the leading baseball writers, will win the major league pennant race which starts today with all the usual trimming of opening day.

From a composite tabulation of the predictions made by 20 of the leading baseball authorities, the teams in the two major league will furnish as follows:

NATIONAL LEAGUE:
New York, Pittsburgh, Chicago, Brooklyn, Cincinnati, St. Louis, Boston and Philadelphia.

AMERICAN LEAGUE:
Detroit, New York, Washington, Philadelphia, St. Louis, Chicago, Cleveland, Cleveland-Chicago and Boston.

Brooklyn and Pittsburgh were picked by several of the experts as the pennant winner in the National League but the Giants were rather generally chosen because the known strength of the team and its efficient management.

The one knock against the Giants was the law of averages against a team that will be called upon again to win more consecutive pennants than any other team has done in the major leagues. The Giants broke all precedents last year when they knocked off their fourth championships in a row and if there is any jinx it should have worked last year.

Washington received very few selections to repeat as the American League champions and some critics predicted that the team would have to fight to remain in the first division. These felt that the Senators were lucky to win last year when the Yankees took things too easily in the cozy belief that they could not be beaten.

The strength of the Yankees was rather generally admitted but it was recalled that the team is old, track-sore and less ambitious than the Detroit Tigers.

Pittsburgh was almost a unanimous choice for the runner up position in the National League and those who picked the Giants for the championship pointed out that the National League champions couldn't falter one step without being in danger of defeat.

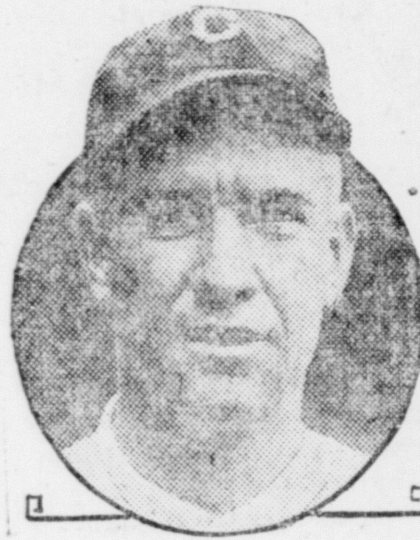

Pittsburgh was almost evenly divided between New York and Washington as the second place club in the American League. One surprising prediction was made that the Boston Red Sox would be the runner up with every other vote assigning them to last place.

Officials, manager and owners were unanimous—as usual—in predicting that this would be baseball's biggest and best year, advance sale of tickets indicating that the scandal before the world's series last year had not injured the game. It was pointed out that Washington's popular victory last year had served to erase any bad marks that might have been made against the pastime.

Nehf On Mound

Boston, April 14—Warner weather with probably increasing cloudiness was predicted for the opening game here today between the Giants and Braves. Art Nehf, McGraw's veteran southpaw, was expected to take the mound against Jess Barnes for the Braves.

Playing Managers Again in Vogue; Six on Major League Teams This Season

Not so many years ago playing-managers were conspicuous by their absence in the major leagues. They were virtually extinct and it seemed that they were likely to pass from the picture for good.

But times have changed within the past few seasons, for playing leaders are again coming back into vogue. Last year three new pilots, who guide the destinies of their teams from the field, appeared. This campaign finds still another one.

Add to this quartet, Tris Speaker, who was appointed manager of the Cleveland Indians in July, 1919, and Ty Cobb, named Detroit chief-tain at the start of the 1921 campaign, and it shows a total of six playing managers in the major leagues to-day.

ABOVE, LEFT TO RIGHT, SPEAKER, COBB, SISLER AND HARRIS; BELOW, COLLINS, BANCROFT.

Outside of Speaker and Cobb, the others are, Stanley Harris, Washington; George Sisler, Browns; Collins, White Sox. This will be the second season as boss for Harris, Sisler and Bancroft. Collins is due to make his debut in the new role a few weeks hence.

Leader Look For a Big Year

By HENRY L. FARRELL
(United Press Sports Editor)

New York, April 14—Perhaps this day could not be recorded for history amply and officially without bringing out the traditional rubber-stamp for the notation—"King Baseball returned to the throne."

The 1925 baseball season opens today in the major leagues and the American Association and the International League starts tomorrow.

Baseball club owners are in an established business that does not need much harrah exploitation, but they are willing to talk in the terms of the circus billboard poster—"Bigger and Better than ever"—when they discuss the prospects for this new season.

All of the major league clubs did

not make money last season. Some of them lost money, but there were reasons and the same reasons always will have the same effect upon clubs that are down in the race.

"It has become almost a habit with the officials who have been in the game for another year to be optimistic in the spring when we arrive at the opening of the season," John A. Heydler, president of the National League said today.

"We have seen the game grow and become firmly established in the affection of the public that we do not figure when the season starts—'will it be a success?'—but we look for reasons why it should not be a success. We find no reason this year to have any doubts that baseball has the same popularity as it has been having. It is true that incidents have happened in the past that might have been harmful to the future of the game, but we believe those very incidents have made the game all the more secure, because drastic action always has been taken to correct any bad influences that might have been a menace.

"There seems to be an opinion that the New York Giants are a cinch to win the pennant. I believe myself that the Giants are a powerful, well-organized and well-directed club, but I do not agree that no other team in our league has a chance for the pennant. I believe the Pittsburgh Pirates, the Brooklyn Robins, the Chicago Cubs and the Cincinnati Reds are to be ranked as possibilities. We have so many examples in the past to show that most anything can happen to wreck a powerful club and inspire one that is comparatively inferior.

"From a box-office standpoint much depends upon the weather during the early season and at best it is always a gamble. The weather is also an important physical factor in deciding the leaders during the early season."

Ban Johnson, president of the American League, looks for a very successful season in his organization.

"The success of the Washington Senators last season was a great boom for baseball and the attempt of the world's champions again to overcome strong opposition in the way of another pennant will make the season most interesting.

"Most of the critics who visited the southern training camps returned with the opinion that the American League race is to be an open one and that most anything can happen. I believe myself that four clubs are standing for the opinion and I have other reasons that it would not be proper to withhold an opinion on the winner."

Boston—Stuffy McInnis, veteran first baseman, who has been a hold-out, has been released unconditionally by the Boston Braves.

Dave Bancroft, Braves; and Eddie Collins, White Sox. This will be the second season as boss for Harris, Sisler and Bancroft. Collins is due to make his debut in the new role a few weeks hence.

Five of the leaders perform in the American League. Bancroft being the single National entry. Two of the six are outfielders. Speaker and Cobb, and the remainder cavort on the infield, Harris and Collins at second base, Sisler at first and Bancroft around short.

Cobb, Speaker and Collins rank as the three oldest regulars in point of service in the majors. Cobb is due to start his 21st campaign, Collins his 20th and Speaker his 18th.

TYGERS LOST FIRST 13 IN 1920 SEASON

About the worst start a major league team ever got was that made by the Detroit Tygers back in 1920, in Hughie Jennings' last season as the manager.

In its first 13 games that campaign, Detroit finished on the short end of the score. Somehow or other the team couldn't get going, despite the fact that it was considered to be in pretty good shape after the first training trip.

Surely it was a disastrous beginning and put the club so far behind right off the bat that the Tygers remained with the trailing outfits all season.

SPORT CHATTER

Philadelphia—Five Nations will be represented in the annual Penn relay carnival to be held at Franklin Field on April 24 and 25. American entries have been made from 646 schools and colleges and other entries will represent New England, New Zealand, Canada and Cuba.

Princeton, N. J.—Fielding Yost, head football coach at Michigan, and Harry Emery, one of his assistants, are assisting Bill Roper with spring football practice at Princeton. Roper and several of his staff will go to Michigan next week to assist Yost.

New York—Under the direction of Charles Crowley, the Columbia football squad had its first workout today. It was the first session of a period of six weeks training.

New York—Joe Kirkwood, Australian golf star, announced that he is going to enter the British open golf championship. He is also going to play in the American championship.

Chicago—Augie Kieckhefer, Chicago, took two games from Clarence Jackson, Detroit, in the national three cushion billiard rounds here yesterday.

Cincinnati—The University of Illinois baseball team wound up its schedule of practice games here yesterday with a 4 to 3 victory over Cincinnati University.

Chicago—O. A. Faxon, Plapo, Ill., amateur, won the Lincoln park gun club shoot here with a total of 147. It was a 150 target, 16 yard rise affair. George Landis, Milwaukee, and Stephen Fay, Chicago, tied for second.

Galesburg Ill.—A special meeting of the "little 19," college conference at Jacksonville, Ill., April 19, has been called in an effort to keep the circuit intact. Withdrawal of Lombard college has created a stir among the members. Officials have intimated arrangements must be made to divide the conference in two groups.

Milwaukee—Joey Sangor, local lightweight, outpointed Pate Sarniento, Filipino, in ten rounds here last night. It was one of the fastest scraps ever staged here. Bushy Graham won from Eddie Anderson.

TEN RUNS IN NINTH TOOK 1901 OPENER

One of the greatest ninth-inning rallies ever staged in the majors took place in the opening game of the 1901 season between Detroit and Milwaukee.

For eight sessions that day the Brewers hit the offerings of the Tiger pitchers to all corners of the lot and apparently had the tilt sewed up with the score standing 13 to 4 when Detroit went to bat in the last half of the ninth.

But a hectic rally, during which Frank Dillon, Tiger first baseman, made two doubles, enabled the Detroiters to count 10 runs and win the old ball game, 14 to 13.

TAIL LIGHTS OPEN SUNDAY

The Rushville Tail Lights, amateur baseball club, will open their season here Sunday, meeting the Rushville cubs. The Tail Lights defeated this team last year, 4 to 3, and both teams appear to be evenly matched. The cubs will start with the following line up, Rankin, H. Warth, J. Warth, Lucas, Wainwright, Kieth, Mellwain, Baker and Newbold.

NOTRE DAME ENTERS 28

Des Moines, Iowa., April 14—Notre Dame University has entered twenty-eight men in the Drake relays to be held here April 24-25. Nine track men have been entered from Creighton University and four from the Oklahoma Aggies.

Chicago—Willie Ritola, Finnish runner who has lowered 22 records during the present indoor track season, will go after the one mile record of his countryman, Paavo Nurmi, in the annual Chicago bankers' meet here Friday night. Other international stars are entered.

A number of friends of Mrs. Edward Dake delightfully surprised her Monday evening at the home of Mrs. Loren Meek in North Main Street, with a miscellaneous shower. Mrs. Dake was formerly Miss Mildred Davis of this city. The guests were the Misses Nina Robertson, Dorothy Stevens, Elizabeth Manning, Evelyn Davis, Mrs. J. C. Davis, Mrs. Earl Gregory, Miss Mary Bates and Miss Marie Hobbs. The honored guest received many beautiful presents. At the close of the social evening dainty refreshments were served.

Mr. and Mrs. John M. Gibson entertained at their home west of the city with a dinner party Sunday. The guests were Mr. and Mrs. A. P. Linville of Gwynneville, Mr. and Mrs. L. B. Keaton and son Wilbur of Morristown, Mr. and Mrs. A. J.

It's a Bandoleer Necklace

THE new bandoleer necklace is being introduced in New York by Constance Delaney, one of this season's most popular debutantes and Junior Leaguers. It is worn in the over-the-shoulder and under-the-arm fashion that originated back in Dorian days, and is decidedly new in this country.

Perkins and Mr. and Mrs. Carl Perkins of New Salem.

Mr. and Mrs. Willis Ronan and sons Virgil and Darrel entertained with an Easter party at their home near Henderson Sunday. Covers were laid for the following: Mr. and Mrs. R. C. Barnes, Mr. and Mrs. Herschel Barnes and daughter Talma Augustus a brides of near Alpine William Fisher and Miss Velma Roman of Connersville. Easter flowers and eggs formed the center for the dining table. The afternoon was spent informally.

Miss Marie Hobbs will be hostess to the members of the W. W. T. class of the First Baptist church tonight at her home in West Fifth street.

The Woman's Missionary society of the First United Presbyterian church will meet Wednesday afternoon at 2:15 o'clock at the home of Mrs. H. H. Elliott.

A surprise pitch-in dinner was given for Mr. and Mrs. J. J. Clifton at their home in Gings Sunday, both of their birthdays coming on Easter. Those present were Mr. and Mrs. Charles Clifton, Mr. and Mrs. John Amuhl and sons Junior and Donald of Indianapolis, Mrs. Fern Flint and son Charles of Cincinnati, Ohio, Mr. and Mrs. Chase Jarrett and daughter Doris Louise of Pendleton, Mr. and Mrs. R. J. Jarrett and Mr. and Mrs. Charles Jarrett of Spiceland, Mr. and Mrs. I. N. Stevens of Mays, Mr. and Mrs. Clifton Jarrett, daughters Mildred and Lucille and son James Robert, Mr. and Mrs. Carroll Clifton, daughter Emogene, Mr. and Mrs. Kanerda Jones and daughters Maxine and Pauline and Glennis Clifton, all of near Gings.

Terre Haute—Jackson Hill Mine No. 6 at West Clinton near here, which has been idle for over a month has opened with the employment of 250 men.

Bluffton—Public spirited citizens have subscribed \$20,000 in stock to retain the B. K. Cettergren piano factory here which had threatened to leave the city.

Fort Wayne—More than a third of the prisoners in the county jail here were held for alleged violations of the liquor laws, according to a report by Henry Marlin, sheriff.

Rush County Federated Club News

Delphian will convene Friday, April 17 in the parlors of the Elks Club, the guest of Mrs. Horatio Havens.

The Advance Literary Club shall meet with Mrs. H. V. Allman at her home in North Perkins street, on Friday afternoon, April 17.

The Shakespeare Club will hold its next meeting with Miss Henrietta Coleman. The date of this meeting will be announced later.

The members of the Research Literary club will meet, April 15, with Mrs. Mildred Harecourt.

The Press chairman is awaiting anxiously some signs of life from the County Federation Bate—The Culture Club.

Mrs. Olive Miller entertained the American Literary club the afternoon of April 8th. Mrs. Lillian Jones discussed "People and Topography" and Mrs. Martha Grindle gave "Natural Resources" under the general topic of "We and the Land God Gave Us." The members responded to roll call with "An American Natural Wonder."

The Sunshine Club of Raleigh held its meeting of April 8th, with Mrs. Fred Bell. The affair was an all day pitch-in dinner meeting. The hostess was delegated to represent the organization at the annual county convention, April 9th.

Officers were elected as follows: President, Mrs. Cora Martin; vice president, Mrs. Fanny McBride;

secretary and treasurer, Mrs. Bandy Kennedy.

Mrs. Cora Martin proves again and again her excellency. The federation must congratulate "Sunshine" on its honored member.

The Tuesday Study Club of Washington Township held its most recent meeting with Mrs. Eva Ertel, April 7. Song, "In the Gloaming." Responses, "Historical Land Marks." The club discussed, Parliamentary Law, "Our National Capital," was described by Mrs. Cora Myer. Current events and the meeting closed with another song.

Mrs. Lowell Green and Mrs. Charles Wilson were hostesses to the Monday Circle at the Elks Club Monday afternoon, April 13. Mrs. Demareus Brown of Indianapolis gave a highly entertaining word-picture of Spain, including in her lecture the progressive influence of the Moors' occupancy of that country, the vivid facts concerning her royalty and her present status compared with other nations.

The Forthright Study club held its regular meeting Monday evening with Mrs. Walter Ray in North Jackson street. Delegates were appointed for the district convention as follows: Mrs. Scott Hosier, Mrs. Lydia Urbach and Mrs. Paul Newhouse. In answer to the roll, members responded with quotations from Charles G. Norris. Mrs. Urbach gave his biography and reviewed his most recent work, "Bread."

Mrs. Marie VanMatre's election to the office of secretary of the County Federation, will certainly force Komentri into the limelight.

The Rush County convention, though not well attended by the local women, did boast of a most interested group—a group awake to its obligation and its possibilities. Nor did they come in vain for the program went farther than it ever has to awaken a club consciousness in club members to the fertile field in which we work.

The departmental reports were rich in suggestions and broad in scope. If our ideas of Better Homes, Memorial Tree movements, importance of publicity, American Citizenship and Civic activity were yet a little hazy, uncertainty surely changed to definite vision and those representatives can return to their groups next year with plenty of instruction and boost.

Then Mrs. Rumples' discourse on Feminine Citizenship was so well and definitely expressed as to inspire all who heard it with a renewed respect for our political rights.

The banquet and program were equal in goodness and abundance. A most splendid spirit prevailed among those gathered, and while we felt the need of numbers, we knew that we were better women for having gone. We had behaved in a manner true to our Club Collect and the reward of broadened ideas was ours.

Keep in mind the District convention at Connersville, April 20 and 21. The program is to be rich in

good music and food for thought. Connersville expects us. We mustn't disappoint her. And when we go, plan to exchange a most cordial spirit and receptive mind for the unquestionable hospitality and entertainment which awaits us.

ship—Noble—and said the fine spirit that exists there is due in some measure to the influence of the Little Flatrock Christian church. He also called attention to the fact that Lowell Norris' precinct was the only one in the county outside of Rushville voting for a free public hospital when that question was up for a vote.

Dr. J. J. Rea, pastor of the Richmond First Presbyterian church and member of the Richmond Rotary club, spoke for a few minutes, telling some good Scotch stories that kept the Rotarians in an uproar. He put the question, "How far have you come?" wondering how many Rotarians were really applying the teachings of the club in everyday life.

Roy Waggoner described meetings of the Tuscon, Arizona, Rotary club, which he recently attended, and said that he met many former Indians there.

Miss Edna Lucas played a violin solo at the opening of the meeting, with piano accompaniment by Miss Betty Innis, and was well received.

Main Street Owns the Oil

NOT LONG AGO, somebody made a play upon words by saying that "Main Street, not Wall Street, now owns the big industries." The observation was more accurate than its maker supposed.

The Standard Oil Company (Indiana) belongs to nearly 11 times as many stockholders in 1925 as in 1919. There are at present 49,277 owners of this Company, of whom not one owns as much as 6% of the whole. 15,264 of these owners are employees of the Company. It is the earnest desire of the Management of this organization that the number of stockholders in the future will multiply in considerably more than direct ratio to the growth of the Company.

It is to the advantage of the public that ownership of the Standard Oil Company (Indiana) steadily becomes more deeply rooted and more widely spread among the people as a whole.

It is to the advantage of society that customers, stockholders and employees should cease to be three separate groups with distinct interests in oil matters, and with frequently divergent viewpoints.

At the present time, thousands of people are at once patrons and employees of, and investors in, this great Company. This joint interest and ownership are giving a steadily increasing firmness and dependability to the service which this organization renders the public.

Much of the efficiency of the Standard Oil Company (Indiana)—much of its smooth functioning, its avoidance of labor difficulties, its freedom to adopt progressive methods—are due to the fact that Main Street owns the Company's oil; Main Street refines and distributes this oil, and Main Street uses the oil products. This organization is essentially democratic. It is financed by the people, operated by the people, and patronized by the people.

The Standard Oil Company (Indiana) in ownership, management, labor and patronage, is an integral part of modern American civilization—its products enter into the very texture of our daily life. When, therefore, we speak of the service of this organization to the public, we are speaking of something which is fundamental to society.

Especially does this apply to the ten Middle Western States in which this Company operates—and in which it has operated in such a manner as to have gained the respect, confidence and esteem of thirty million people.

SICK WOMEN OF MIDDLE AGE

Can Be Carried Comfortably Over The Critical Period by Lydia E. Pinkham's Vegetable Compound —Note Mrs. Headen's Case

Macon, Georgia.—"During the Change of Life I suffered with my whole right side and could not lie on my left side. I was in bed about two months and could not get up only as my son would lift me. After doctoring without relief a man who was rooming with us told my son that Lydia E. Pinkham's Vegetable Compound cured his mother at the Change of Life, so I began taking your medicine. After taking it for two weeks I could get out of my bed by myself. I am now 53 years old and in better health and stronger than ever in my life. I have recommended the Vegetable Compound to many suffering women, young and old, and you may use my name anywhere as long as you please. I will be glad to answer any letters sent to me."

—Mrs. F. B. HEADEN, 5 Holt Avenue, Macon, Georgia.

In a recent country-wide canvass of Lydia E. Pinkham's Vegetable Compound, over 200,000 replies were received and 98 out of every 100 reported they had been benefited by its use. For sale by druggists everywhere.

Alice Terry At Princess

Rex Ingram, producer of "Scaramouche" and "The Four Horsemen," has made another wonderful photograph in "The Arab," the Metro picture which opened yesterday at the Princess theatre. Ramon Novarro and Alice Terry have the principal roles, that of a Shiek's son, and a missionary's daughter. The young Bedouin falls in love with the Christian girl, and through his tribe saves her and her father from intended massacre by the Mohammedans.

The story, taken from the stage play written and acted by Edgar Selwyn, is ideal for the famous trio, for Ingram shows his genius in an entirely new form of picture, and Miss Terry and Mr. Novarro look and act better than ever. The film was made in Northern Africa, and the natural locations are worth a trip to the theatre alone. John F. Seitz was the photographer.

Last Showing Tonight

The final showings of the Paramount picture, "The City That Never Sleeps," James Cruze's latest production featuring Richardo Cortez, Louise Dresser, Kathryn Williams and Virginia Lee Corbin, which opened at the Castle theatre on Monday, will be held there this afternoon and evening.

The story, an adaptation of a magazine serial by Leroy Scott, is, as you could easily guess, one of New York, with all its romance and night life. It is a heart-rending tale of a mother's love for her baby daughter. She sacrifices herself that the child might have every advantage, only to receive in return, abuse. Leave it to Cruze to tell this delightfully human story in A-1 style. It was to be expected of him after such knockouts as "The Covered Wagon," "Merton of the Movies," etc. And he's done it.

Pierre Gendron, James Earley, Ben Hendricks and Baby Vendell Darr, have prominent roles in the strong supporting cast.

GENERAL

Mark of the Leading Tire Store

Lung Pressure Tires?

You can't run a tire on lung pressure. But Generals run on lower air pressure than any other make—and this applies to all sizes—Regular as well as Balloons. The successful use of low pressure depends upon a construction that is able to withstand the heating-up and wearing effect of the increased bending and straining under low pressure. This shows why General's leadership in low-pressure tires, not only in Balloon sizes, but in all regular sizes, goes hand in hand with General's greater freedom from internal friction.

SENTENCE OF CHECK FORGER SUSPENDED

Ralph Gurley of Milroy Pleads Guilty on Grand Jury Indictment and is Free on Good Behavior

CONNERSVILLE MAN ON BOND

Walter Matthews Indicted as Result of Accident East of Carthage Few Weeks Ago

Two more grand jury indictments were served today, being against Ralph Gurley of Milroy, charged with forgery, and Walter Matthews of Connorsville, charged with assault and battery and failing to give his name after an automobile accident.

Gurley, who gave his age as 24, has been in jail for several weeks, following his arrest by Clyde Kitchen of Milroy. He was accused of giving a check forged on his father-in-law, Mr. Jackson of Milroy.

He admitted his guilt, and was fined \$1 and costs and his sentence of from 2 to 14 years was suspended during good behavior. The plea for clemency was asked by Mr. Kitchen and other citizens of Milroy, who were interested in the youth, and wanted him to have a chance. The young man has a wife and two small children. In granting the plea for clemency, Judge Sparks told Gurley to leave Milroy and take up residence in some other community.

Walter Matthews of Connorsville appeared in court on summons issued on a grand jury indictment, charging him with assault and battery and failing to give his name and address following an automobile accident in which injury was done.

He entered no plea and provided \$200 bond for his appearance when the case is set for trial. The indictment in two counts is based on an automobile accident east of Carthage several weeks ago, when machines driven by Matthews and B. O. Simpson of Rushville were in collision. The Simpson machine was badly damaged and occupants injured. It is charged that Matthews left the scene of the accident immediately after the wreck, and failed to leave his name and address, and it was necessary for state police to conduct a search for him, as his car was traced by means of a Connorsville name plate.

With the release of Gurley from jail, the big list of prisoners have been reduced to one—Paul Spacey. Sheriff Hunt took three prisoners to Pendleton late yesterday. Spacey is charged in various counts, and will be given a trial in a few days.

HIGH WIND STORM SWEEPS ACROSS STATE

Extensive Damage Reported in Three Cities, Sullivan and Kokomo Being Most Seriously Affected

CLOUD FRIGHTENS PEOPLE

(By United Press)
Indianapolis, Ind., April 14—Considerable property damage was reported in three cities of Indiana today from a high wind storm which swept across the state late yesterday.

Houses were unroofed, trees were uprooted and telephone and telegraph poles were blown down by the twister.

Most damage was done at Sullivan and Kokomo. A few houses were unroofed at Fort Wayne.

Citizens of Sullivan were panicky when they saw the storm clouds approaching. The cloud was a typical conical twister, and the recent disaster in southern Indiana and Illinois was recalled.

The twister was travelling at a high altitude and dipped down just enough to strike one corner of the town.

More than a dozen houses were unroofed at Kokomo and several buildings were blown from their foundations.

Warsaw, Ind., April 14—Survey of damage done by a cyclone that struck Kosciusko county late Monday showed today that it will run into several thousands of dollars.

DEATH WITHIN 3 WEEKS

Mrs. Mary Stamm, Age 67, Widow of Howard Stamm, Dies This Morning of Paralysis

STRICKEN FOUR WEEKS AGO

Mrs. Mary Stamm, widow of Howard Stamm, died this morning at 9:30 o'clock at the family home, 522 West First street, following her husband in death by three weeks.

Mrs. Stamm was stricken with paralysis four weeks ago, and was ill when her husband died after a brief illness. The shock of his death, hastened her death, and she had been seriously ill for several days. She was 67 years of age.

The deceased is survived by seven children. They are Carg Stamm, William Stamm and Miss Ella Stamm, all living in this city; John Howard Stamm of Newcastle; Mrs. Clyde Root of Martinsville; Mrs. Blaine Hunt of Indianapolis and Mrs. Byron Frazier of Connorsville.

The funeral arrangements were not completed today and will be announced tomorrow.

OBERHOLTZER GIRL DIES OF POISONING

Alleged to Have Been Attacked by D. C. Stephenson in Train, After Which She Took Poison

UNCONSCIOUS FOR TWO WEEKS

Stephenson Leaves Office 15 Minutes After Girl Dies and His Whereabouts are Unknown

(By United Press)
Indianapolis, Ind., April 14—Miss Madge Oberholtzer, 28, whom D. C. Stephenson, former leader of the Ku Klux Klan, is alleged to have attacked, died at her home here today. Stephenson was charged with assaulting the girl on a midnight ride to Hammond, Indiana, in a Pullman car compartment.

The girl is said to have swallowed poison following the attack. She has been unconscious since the alleged attack two weeks ago.

After Miss Oberholtzer had been returned to her home here, her father filed charges against Stephenson, who was indicted subsequently by the Marion grand jury on five counts. Stephenson was freed under bond, after a determined effort had been made to hold him without bail, the judge asserting bail would be refused only in case of murder.

Prosecutor William E. Remy and Charles E. Cox, attorney for the dead woman, went into conference immediately following the girl's death, to consider whether they will demand a change in the indictment against Stephenson to a charge of murder. Cox had announced several days ago that that course would be pursued in event of her death.

Stephenson left his office about 10:15 a. m., just fifteen minutes after the girl's death. He did not tell the employees of his office where he was going and he had not returned shortly after noon.

The indictment confronting him

TELLING STORY TO SCHOOLS

Naomi Nash on Tour Describing Experiences in "Legislature"

Miss Naomi Nash of the Ging high school, who recently represented the county schools in the Junior General assembly at Indianapolis, has started on her tour of the county schools, relating her experiences in the state legislature. Miss Nash is being accompanied by B. D. Farthing, county school superintendent. Four schools were visited today and four will be visited Wednesday. She will then complete the tour on April 21 and 22, visiting the remaining schools.

Miss Nash profited very much by her experience as a member of the junior law making body, and has prepared an interesting, detailed report of the activities of the young law makers, which she is carrying to all pupils.

CLASS IN BUGOLOGY WILL NOW COME TO ORDER

Day of Penny Postal Souvenir Cards Goes Out With New Rates in Effect

Postage Increases do Not Apply to Government Cards, But to Those Made by Individuals and Firms. New Rates Also Increase Fees for Money Orders, C. O. D. Charges, Registries, and All Other Classes of Mail Matter.

"Having a fine time. Wish you were here."

We shall have to pay two cents for the privilege of sending this rather hackneyed message on a souvenir post card this summer, when we are taking our vacation. The new postal bill, approved February 26 by congress, becomes effective Wednesday.

The new postal bill not only provides for increases in wages for postal employees, but increased among other things, the rate on private mailing cards to two cents.

A summary of the new postal bill, is as follows:

Private mailing-cards, 2 cents each; the old rate was 1 cent. Government cards remain at 1 cent.

Those who are in the habit of sending single copies of newspapers and magazines will find that the new rate of postage on publications entered as second-class matter "when sent by others than the publisher or news agent," shall be 2 cents for each 2 ounces or fraction thereof for weights not exceeding 8 ounces "the rates of postage prescribed for fourth-class matter shall be applicable thereto." The present rate is 1 cent for each 4 ounces.

The former rate for third-class mail was 1 cent for each 2 ounces up to 4 pounds. Third-class mail will not include merchandise, which formerly was fourth-class. The new third-class rate is 1½ cents for each 2 ounces up to 8 ounces, except on books, catalogs, seeds, cuttings, bulbs, roots, scions, and plants not exceeding 8 ounces, on which the rate is 1 cent for each 2 ounces.

All matter over 8 ounces which is not included in the other classes is not fourth-class mail. The basic rates remain as at present. The new bill, however, adds a flat 2-cent service charge to each package, and provides a "special handling" charge of 25 cents that is optional. This entitles such mail matter to the same expeditious transportation, handling, and delivery accorded to mail matter of the first class. There were no such provisions under the old law.

Money-order fees have been raised from 3 cents to 5; from 5 cents to 7; from 8 cents to 10; from 10 cents to 12; from 12 cents to 15

cents. The 18-cent fee remains the same, the 20-cent fee is reduced to 18, the 25-cent fee to 20, and the 30-cent fee to 22. Whereas the old registry fee was \$50, and 20 cents for an indemnity up to \$100, the new law provides that not less than 15

Automobile Factories and Accessory Plants Called on to Cease Work During Haynes Funeral

ATTACK FOLLOWS INFLUENZA

"Father of the Horseless Carriage" Built First Machine in Kokomo in 1894

(By United Press)
Kokomo, Ind., April 14—Mayor Burrows of Kokomo today sent out a proclamation calling on automobile factories and accessory plants throughout the country to cease work during the funeral of Elwood Haynes, "father of the horseless carriage."

Time of the funeral will be announced today. It is expected to be held at the Haynes home here. Haynes, who was 68 years old, died last night from heart trouble that followed an attack of influenza several weeks ago. After the attack of influenza, Haynes went south for his health but hastened home when advised that his condition was serious.

Only the members of his immediate family knew his critical illness until physicians announced during the day yesterday that he could not recover.

Haynes built his first automobile in 1894 after two years of experiment with various types of engines. On July 4, 1894, he had the "horseless carriage" towed a few miles out of Kokomo behind a horse and buggy.

Casting off the tow rope, Haynes triumphantly piloted the machine back to town at a speed of eight miles an hour.

The machine was the first auto built in the United States, and is now preserved in the Smithsonian Institute at Washington.

A short time later Haynes organized the Haynes automobile com-

INFANT HYGIENE LECTURES PLANNED

Series of Five Will be Given in The County Under Direction of Health Board Division

ONE EACH WEEK ANNOUNCED

N. Maude Arthur, M. D., and Miss Evaline Renwick, R. N., to Give Lectures and Demonstrations

A series of lectures and demonstrations for women will be given in Rush county, beginning the week of April 27 and continue until the week of May 29, inclusive, under the auspices of the division of infant and child hygiene of the Indiana state board of health.

The lecturers and demonstrators will be N. Maude Arthur, M. D., and Miss Evaline Renwick, R. N. Dr. Arthur will lecture the first, third and fifth week and the last week motion pictures free to the general public will be given. Miss Renwick will lecture and demonstrate the second and fourth weeks. The exact time and place of the meetings will be announced later.

Because so many women do not understand the scientific basis of mother care, a course of instructions in the essentials of such care has been prepared by the child hygiene division of the state board. It is hoped to impress prospective parents with the importance of safeguarding in every possible way Indiana mothers and babies.

"To illustrate in many cases temporary teeth are soft and soon decay because of calcium deficiency of the expectant mother," says Ada E. Schweitzer, director of the division. "Had this lack been recognized in early pregnancy, much might have been done to insure soundness of teeth which were to erupt anywhere from 5 to 10 months after birth. The antenatal needs of the baby are quite as important as the postnatal needs and should be much more general understood."

"In the first series of 5 lessons, the first explains in a general way antenatal growth and development and the reasons for medical supervision from the beginning of pregnancy. In other words, the protection of the woman all along her nine month's journey instead of just at the end."

"Those who sign for the five weeks course (one lesson a week) are asked only to come regularly and to keep note books and to ask questions which the doctor and

SAYS WIFE POINTED A REVOLVER AT HIM

Deward B. Gilson Charges in Divorce Complaint Edna M. Gilson Threatened his Life

NEGLECTED HER CHILDREN

In a complaint filed for divorce in the circuit court, Deward B. Gilson charges his wife, Edna M. Gilson, with having a high temper, and had pointed a revolver at him, threatening to shoot him.

The couple was married in February, 1922, and separated in February of this year, according to the suit, and lived in Knightstown, and in the extreme north end of Rush county, adjoining Knightstown.

In his complaint, he sets out that she had an ungovernable temper, spent a great deal of her time on the streets at Knightstown and neglected their two small children and her home. He is a traveling salesman, according to the action, and his complaint demands a divorce, and also seeks to have the court make proper arrangements concerning the custody of the children.

In the case of Charles Beeson against Floyd Porter, the evidence has been heard by Judge Sparks, and judgment rendered for \$56.25 on a note.

ROTARY DIRECTORS SELECT OFFICERS

George J. Griesser is Chosen President and D. D. Ball is Re-elected Secretary

FOLLOWING NOON MEETING

Fred Bell Describes Scene at Morris Farm Monday—Dr. J. J. Rea of Richmond Speaks

Following the regular meeting of the Rotary club today noon at the Odd Fellows Temple, the board of directors chosen last week met and organized by electing George J. Griesser as president, John A. Tittsworth, vice president, and Glen Foster, treasurer, and re-elected Donald D. Ball secretary and Jack Knecht, sergeant-at-arms. They will take office May 1.

Fred Bell described the scene on the Lowell Norris farm southeast of Rushville Monday when forty neighbors, with 74 head of horses and fourteen tractors, did Mr. Norris' spring plowing and prepared the ground for planting.

"There wasn't a man there," said Mr. Bell, "who did not enjoy the day's work many times more than if he had been doing his own. It was a demonstration of friendly sympathy that communities like Noble township really have."

He commented on the marvelous sight that such a crowd of farmers and equipment presented and likened them to a flock of crows, because they could be seen everywhere.

"From what observations I have made," Mr. Bell added in closing, "whenever I have been outside Rush county, there are no people to be found that quite measure up to those who live here when it comes to genuine friendliness and community spirit."

John A. Tittsworth arose to say a word in favor of his home town.

FOR 75 MILES OF STATE ROADS

State Highway Commission Opens Bids for Eleven Projects

Indianapolis, Ind., April 14—The state highway commission today opened bids for improving 75 miles of state roads.

The bids were for surface on twenty-five miles.

The projects are in Lawrence, Harrison, Floyd, Monroe, Clark, Adams, Allen, Wells, Henry, Delaware, Grant, Ohio, and Dearborn. They are located on roads Nos. 21, 13, 33, 11, 35, 27, 40, 4, 5, 22, and 38.

The work is to be completed by November 15.

RUSHVILLE PASTOR IS NEW MODERATOR

The Rev. Gibson Wilson is Elected Head of Whitewater Presbytery at First Session

MEETING CONTINUES TODAY

Dr. M. F. Smith, Pastor of First Church in Indianapolis, Delivers Opening Sermon

The Rev. Gibson Wilson, pastor of the First Presbyterian church, was elected moderator of the Whitewater presbytery, which is holding the stated spring meeting here, at the business meeting at the close of the opening session Monday evening. He succeeds the Rev. Forrest C. Taylor of Lawrenceburg.

The Rev. Mr. Wilson's term is for the ensuing year. The Rev. H. E. Harris of Lewisville was elected temporary clerk. The Rev. James S. E. McMichael of Connorsville has been stated clerk during the past year.

The session continued throughout the day, opening this morning at 8:45 and continuing this afternoon at one o'clock, after a noon recess.

About twenty ministers and an equal number of elders were present from the eight counties included in the presbytery, and a number from the local congregation were present for Monday night's session when the presbytery was constituted and the opening sermon was delivered by the Rev. Matthew F. Smith, D. D., pastor of the First Presbyterian church of Indianapolis.

Special music was provided by the choir of the Rushville church and the invocation was pronounced by the Rev. J. J. Rea, D. D., pastor of the Richmond church. The scripture lesson was read by the Rev. R. Dale LeCount, pastor of the Knightstown church, followed with prayer by the Rev. H. E. Harris of the Lewisville church.

The subject of Dr. Smith's sermon was "The Urgency of the Gospel," and he took for his text Luke 14:23, "Go out into the highways and hedges and compel them to come in." Dr. Smith pointed out how the command had been given to spread the gospel to the far corners of the earth and the responsibility that rests upon the church and all followers.

WORLD OUTLOOK WEEK IS TO BE OBSERVED

Three Group Meetings Planned to Include Every Member of First Baptist Church

TO PRESENT CHURCH NEEDS

A special feature of the program of the First Baptist Church this week will be the observance of "World Outlook Week." Three group meetings are planned to include every member of the church. Beginning Wednesday afternoon at 2 o'clock will be the meeting of the women, presided over by Mrs. R. W. Sage, president of the Missionary Society. The meeting will be in the form of a missionary tea, and will include an interesting presentation of the accomplishments of Baptist missionary endeavor.

At 6:45 Wednesday evening the men's group will meet for supper in the basement of the church. Wilbur Mahin, president of the Brotherhood, will preside, and Raymond Clarkson will have charge of a special program. Every man of the church is urged to be present. Beside an interesting program, definite plans will be made for the perfecting of the organization of the Brotherhood, and a regular meeting night will be decided upon. No man of the congregation can afford to miss this meeting.

Young people of the church will meet in their group on Friday night, and a more definite announcement of their meeting will appear later.

The purpose of "World Outlook Week" is to bring to every church in the Northern Baptist Convention information as to the needs of the missionary societies and boards, and to challenge every church to its best efforts to meet its share of responsibility.

Through the work of the child hygiene division along this line, mother deaths and infant deaths in Indiana are showing a decrease. Deaths of mothers in the state during 1923 were 392 and last year the number was reduced to 361. Infants under one year of age dying in the state in 1923 totaled 4630 and last year the deaths of infants of this age were less, numbering 4429.

Following the sermon, the presbytery was constituted with prayer by the retiring moderator and roll was called of the churches in the presbytery. This was followed with the election of officers.
Today's sessions were devoted largely to routine business, which included reports from the trustees, the presbytery treasurer and various departments.
Devotional exercises were conducted by the Rev. John Garrettsen, the new pastor at Aurora, and at ten o'clock the report of the department of home missions was given by Dr. Rea Commissioners of the assembly were nominated this morning and the session closed with a report on the department of Christian education by the Rev. David R. Moore.
Scheduled for this afternoon were the following reports: department of spiritual resources, the Rev. J. R. Bardemeier; department of foreign missions, the Rev. A. E. Ewers, D. D., of Greensburg; department of vocation and supply, the Rev. Mr. Bardemeier.
Election of assembly commissioners to represent the presbytery at Columbus, Ohio, when the general assembly meets in May, was to take place at two o'clock, and at three o'clock the final report, one on the department of sessional records, was to be made by Rev. F. C. Taylor.

cents nor more than 20 cents, in addition to postage, shall be charged. In addition there is a charge of 3 cents for a return receipt. The insurance rates are raised as follows: from 3 cents to 5; from 5 cents to 8; the 10-cent and 25-cent rates remain the same; and, as in the case of registry fees, there is a charge of 3 cents for a return receipt.
The old C. O. D. charge was 10 cents for collections up to \$50. The new rate is 12 cents for collections up to \$10, 15 cents for collections up to \$50, and 25 cents for collections up to \$100. The old special-delivery rate of 10 cents remains in force for packages weighing up to 2 pounds. Under the new bill, packages weighing from 2 to 10 pounds will cost 15 cents. On packages weighing more than 10 pounds, a special-delivery fee of 20 cents is charged. Of the 10 cent fee, the messenger receives 8 cents, of the 15-cent fee, he receives 11 cents, and of the 20-cent fee, he receives 15 cents.

MUDDY COMPLEXION GOES WITH BAD STOMACH. DI-JO REMEDIES THE CAUSE

A strong, healthy appetite, a fine complexion, good health and a strong body go with a healthy stomach. If your food isn't giving you strength, if your face is pasty and you have a muddy complexion there is something radically wrong, and the probabilities are that it may be your stomach.

You eat food merely to keep the body going and if that food imparts strength to the body then it is doing its work well. But if your stomach is sour, if there is gas on the stomach, if you feel languid and tired after eating, if you have gas pains about the heart, THEN LOOK OUT.

DI-JO ORDINARILY WILL CORRECT THIS CONDITION. It neutralizes the over-acid condition of the stomach. It helps the stomach to take care of the food and strengthens the digestive juices so that instead of your food remaining there, a mass of undigested garbage, it is quickly and properly digested. Of course you don't have to take DI-JO forever, but you will want to take it until the stomach regains its normal condition and until it can do the work it is supposed to do. DI-JO merely steps in and fills the gap while the stomach rests.

If the bowels are lazy you should take DI-Vac in connection with DI-Jo but, only for a limited time because in a few days the normal condition of the stomach will make the use of a laxative unnecessary. You will find DI-Jo and DI-Vac for sale by all druggists.

A hardware store has always been thought of as more of a men's store, where men would buy their Tools, Nails, Hoes, Rakes, Shovels, and a general line of Hardware. But the times have changed. So now we have changed our store, and given the entire first floor space for the benefit of the women. We have a complete line of Household Goods, not all on the first floor, but all we could put there. Our Stove Department is on the third floor. Washing Machines, Clothes Baskets, Ironing Boards and that class of goods are on the second floor. We want the women to feel that this is also their store for quality goods.

NEW ACTS WILL BE READY BY APRIL 28

When They Are Distributed Among Counties, Governor Will Proclaim Them in Effect

SOME NEW LAWS IN EFFECT

New Prohibition Code, "Blue Sky" Act and Garnishee Act Yet to Become Effective

(By United Press)

Indianapolis, Ind., April 14—The 136 laws out of 218 enacted by the 1925 legislature which do not bear emergency clauses were expected today by Charles Kettleborough, head of the state legislative bureau to go into effect about April 28.

Copies of the 1925 acts are being printed and bound now and are being sent out to the ninety-two counties in the state. Vanderburgh and Stueben counties will be sent their copies first.

These counties are farthest away. The remainder of the acts will be sent to those closer in and the counties nearest Indianapolis will be sent their copies last in order that all counties may receive their copies as nearly the same time as possible.

Approximately 37,000 copies of the acts are to be distributed.

When all are distributed and received for the Governor will issue a proclamation declaring them in effect.

Most important among the acts to go into effect at that time are the new prohibition code, the "blue sky" act, and the garnishee act.

Other acts include those providing for a state budget advisory committee, diversion of all state fees into the general fund, diversion of special levies into the general fund, consolidation of the state library, state law library, legislative reference bureau and the state historical department into one department, a bureau of agricultural statistics, a abolishment of trustees of the state feeble minded colony, public school nutrition course, recodification of the weights and measures law, licensing of firearm dealers and pistol permits, and public service commission control of motor busses.

Give the Auto Its Due

John H. Mueller, professor of so-
ciology at Chicago university, has
laid down a severe indictment of
the automobile. It takes the "high
school and college student from
the home group and makes him an
enemy of society, the professor
says.

Perhaps the auto is a disturbing
element in society, but never forget
that it takes two to make a bargain.
The auto is a temptation leading to
evil ways that some young people
can't resist, and it becomes the duty
of those who are guiding boys and
girls to build up a resistance
against it.

Complaining about the bad influ-
ence of the automobile does not re-
move it as a factor to be dealt with
in the rearing of children. It is a
real problem, the more so because it
can't be automatically removed.

The automobile is here to stay.
It can't be driven out as the open
saloon was, because it has economic
and social values that far outweigh
the evils that are laid at its door.
Regardless of what may be said
regarding the bad habits it is teach-
ing people, young and old alike, the

Dr. Edwards' Olive Tablets do that

tively, but their action is gentle and
safe instead of severe and irritating.

No one who takes Olive Tablets is
ever cured with a "dark brown taste,"

automobile has had a beneficent in-
fluence on many homes.

The family car, though it may
have flattened the family purse, has
broadened the viewpoint and in-
creased the knowledge of countless
persons. It has enabled people of
small means to get a liberal educa-
tion through travel. It has taken
people into the fresh air, where they
have found their first contact with
outdoor things. It has changed the
rooms of many lives by cultivating
outdoor habits and an appreciation
of nature and all its beauties.

The automobile isn't perfect, of
course, since it is only the product
of man's genius, but it is not wholly
disreputable, though it may be ac-
quiring a bad reputation for leading
young people into paths they should
not follow.

Purebred vs. Scrub

About 62 percent of purebred
livestock is marketed directly for
meat purposes.

Purebred meat animals cost
slightly less than scrubs to raise to
maturity; purebred dairy cattle cost
slightly more.

Only about one-half of the pure-
bred animals in the country eligible
to registration are actually regis-
tered.

Purebreds are much more profit-
able to raise than scrubs, and
somewhat more so than grades, the
degree depending on the proportion
of pure blood the grades possess.

About 96 percent of persons who
give the use of purebred sires a fair
trial stick to the general principal
of using them for all classes of
stock.

Improving the quality of purebred
livestock by rigid culling and by
selling only worthy animals for
breeding purposes is urged and also
is being practiced by progressive
farmers.

These statements are based on
the results of a questionnaire in-
quiry, covering 45 States, conduct-
ed by the bureau of animal industry,
United States department of Agri-
culture. The evidence clearly is in
favor of purebred stock and farm-
ers who have followed this course
know that profits from the same
amount of labor are larger than
wasting time with scrubs.

Hunt's Washington Letter

BY HARRY B. HUNT

NEA Service Writer

WASHINGTON—When the
processes of the law become
so involved that the govern-
ment itself cannot follow them, it
would seem to the layman, that
the time had come for some sim-
plified and commonsense rules of
procedure.

Content for the law, about
which public authorities complain
so bitterly, is helped, not hindered,
by the spectacle of such denou-
ements as came in the government's
prosecution of criminal indict-
ments against Fall, Sinclair and
Doherty in connection with the
"great oil scandal."

The indictments were quashed
by Chief Justice McCoy of the
District Supreme Court, not be-
cause of any question of fact in
the evidence submitted to the
grand jury, but because of the
presence at the grand jury hear-
ings of a representative of the
Department of Justice.

The only possible conclusion is
that the Department of Justice it-
self cannot tell, under the involved
and intricate technicalities that
have come to surround grand jury
procedure, when it should and
when it should not take a hand in
presenting evidence for prosecu-
tion. Any other conclusion would
mean that the department de-
liberately acted in a way to jeop-
ardize the validity of the indict-
ments; that the department was
directly seeking to thwart, not to
obtain justice.

ANYHOW, Assistant Attorney
General Oliver Pagan was
present as an assistant to the
special counsel appointed by Presi-
dent Coolidge to prosecute the oil
cases, and McCoy holds he ought
not have been there. The indict-
ments are voided on this ground
alone.

In the meantime, a full year
having passed since the indict-
ments were returned—the statute
of limitations has expired on the
charges of bribery on which two
of the indictments were based. If,

on appeal, the action of Justice
McCoy is sustained, the govern-
ment will, by the action of one of
its assistant attorneys, generally,
have lost the right to press these
bribery charges further.

The whole cause of justice,
therefore, rests not on the fact of
bribery or lack of it, but on a
technicality which bars the way
to any trial on the real facts. And
in this case the government itself
set up the technicality which
thwarted its own prosecution.

SPEAKING of bribery—Demo-
crats suggest that actually,
though not morally or legally,
some such influence was responsi-
ble for the election of Mr. Coolidge
for Governor of Massachusetts, Mary-
land going Republican for the
first time in its history last No-
vember.

As the story goes, the presiden-
tial yacht Mayflower, on one of
Coolidge's week-end trips last fall,
put in at Cambridge, Md., on lower
Chesapeake bay one Sunday morn-
ing. The president and his party
debarked and made their way to
church to attend services. When
the collection plate was passed,
Coolidge put into it a crisp new
\$5 bill.

The church authorities, proud of
the visit by the presidential party,
seeking some tangible token by
which the memory of the visit
could be perpetuated, pounced
upon that \$5. Instead of being
turned into the treasury it was
properly labeled, framed, and hung
in the vestry room. There it was
inspected by not only all of Cam-
bridge, but by hundreds of visitors
from the back country who visited
the county seat prior to election.
The Coolidge contribution became
a lodestone that drew Democrats
and Republicans alike. Many who
came skeptical and scoffing, went
away in reverence.

Yes, it was true, they spread the
word: "Five whole dollars, right
out of the presidential pocket!"
The result, according to the
Democratic alibi experts, was the
carrying of Dorchester county at
a personal cost to the president of
one \$5 bill!

**A SCHOOL BOY'S
SWEETHEART**
By OTTIS CRAWFORD

I learned to say my A. B. C's.
When I was very small,
In a little school house beneath the
trees.

That grew both big and tall.
At first I thought it mighty tough
For a little boy like I,
To have to learn such a lot of stuff,
Which seemed so awful dry.

My eyes would wander from my
book,
I'd twist and squirm and smile.
Quite often I would steal a look
At the girl across the aisle.

I'd write her name upon each page,
And carve her initials on the sly,
For to a boy of just my age,
She looked like an angel from the
sky.

The best of friends we learned to
be,
And later, sweethearts true,
And ever since I'm sure that she
Taught me a lesson to keep in view.

On evenings when we had to walk,
We never were in hate.
We'd just stroll along and talk,
With my arm around her waist.

We strolled along for many years,
Ah, but I loved that little Miss,
Although she soundly boxed my ears
Every time I stole a kiss.

I was proud to call her sweetheart,
In those school boy days of mine.
Because her image filled my heart.
With a love that was divine.

Since then I've grown to man's es-
tate,
And see life in different ways,
But still I'm sure that it was great,
To have a sweetheart in school boy
days.

**Seeking Forgetfulness In
The World That He Shunned**

Gary, Ind., April 14—"With his
mate," Diana of the Dunes" dead,
and their former home in the wind-
swept hills of the Indiana duneslands
a heap of ashes, Paul Wilson was
today seeking forgetfulness in the
world which he and Diana shunned
for so many years.

At present Wilson is believed to be
with his parents in Michigan City
where he went soon after Diana
died.

Once or twice since her death he
has been seen in the dunes but only
for a fleeting vision.

Wilson made a pyre of his hopes
and ideals when he touched a match
to his little shack that sheltered the
couple in the dunes east of here for
a decade of existence fraught with
the combats with nature.

For him the life that contained
Diana is a closed episode.

"Diana" before her marriage, was
Miss Alice Gray, a university gradu-
ate.

SENATORS MAY BE CONTENDER AGAIN

Washington Team Showed Great Form in Preliminary Games with New York Giants

MAY WORRY JOHN MCGRAW

New York Team is Weak on Pitching End, According to Spring Training Results

By HENRY L. FARRELL
(U. P. Staff Correspondent)

New York, April 14—Form shown by the Washington Senators in the spring world's series against the New York Giants may change the calculations of some of the experts who have been counting the world's champions out of the 1925 pennant race.

The Senators did no better than break even in a 12 game series with the Giants but that was fair enough. In a way it proved that the world's series last fall was true to form because the Senators became the world's champions on two very lucky breaks in the final game when two badly bounding balls went over the head of little Freddie Lindstrom.

John McGraw and those who have been figuring on a certain Giant victory in the National League will have some cause for concern over the form shown by the New York pitchers since they returned from the south.

In the two games played here against the Senators, it looks like McGraw has only one dependable pitcher—old reliable Art Nehf.

Hugh McQuillan took an awful beating from the Senators in the first game here, and Jock Scott—who had been advertised as the comeback savior of the staff didn't last any inning in the second game.

With Frisch, Groh and Lindstrom laid up the Giants were badly handicapped in the two games that might have given them the series against the Senators but it must be remembered that in deciding games of the world's series the Washington club was just as weak on the defensive with Peck out of the game and Miller on third base.

The strengthened reserve force of the Senators was shown yesterday when Bucky Harris was tossed out of the game by Umpire Walker before he was in it officially. Instead of calling upon Mike McNally, the former Yankee, who was picked up as a minute man, the Senators shoved a youngster, Adams, into the game and he did very well. The Senators also uncovered a young pitcher, Harry Kelly, who may go somewhere in fast company.

The Yankees, on the other hand, showed fine form in finishing the series with the strong Brooklyn Robins with a 10 games to seven victory. The Yankee pitchers seem to be in great form and pitching is a good sixty per cent of the Yankee strength.

FIGHTS AND FIGHTERS

Evansville, Ind.—Mickey O'Dowd defeated Bennie Denny in ten rounds.

New York—Mike McTigue, world's light heavyweight champion, signed last night to meet Paul Berlenbach, New York challenger, in the Yankee Stadium on May 29. The bout will be the feature of a card for the benefit of the Milk Fund.

Philadelphia—Eddie Wager, Philadelphia lightweight, won a ten round decision from Tommy Murphy, Trenton.

Ithaca, N. Y.—Jimmy Slattery, Buffalo light heavyweight, stopped Jack Vasscher, Wheeling, W. Va., in the fifth round.

New York—Abe Goldstein, former world's bantamweight champion, knocked out Spark Plag Russell, Newark, in the third round.

Pittsburgh—Danny Kramer, Philadelphia featherweight, won a 10 round decision from Curly Wilbur. Wilbur was on the floor three times.

RUSHVILLE CLUB ORGANIZED

Home Games Will be Booked for West Third Street Grounds

The Rushville baseball club has organized for the season, according to an announcement made today, and home games will be booked for the West Third street grounds. The first game will be arranged for Sunday, April 25, and the opponent will be announced later.

The club has elected Alvin Shaw as player manager, and home talent boys will be used. Shaw will be on the mound, with Byrne as catcher. Other players who will have places on the team will be Sharp, Pearsey, Warth, the Joyce Brothers and other well known players. Games will be booked with teams in this vicinity, and it is expected that much interest will be shown in the game this season.

GIANTS AND TIGERS ARE PICKED TO WIN

Leading Baseball Writers Make Selections as Big Leaguers Open Season of 1925

USUAL TRIMMING IN FORCE

Brooklyn and Pittsburgh Choice of Few Experts—Law of Averages Against Giants

By HENRY L. FARRELL
(U. P. Staff Correspondent)

New York, April 14—New York and Detroit, in a consensus vote of the leading baseball writers, will win the major league pennant race which start today with all the usual trimming of opening day.

From a composite tabulation of the predictions made by 20 of the leading baseball authorities, the teams in the two major league will furnish as follows:

NATIONAL LEAGUE:
New York, Pittsburgh, Chicago, Brooklyn, Cincinnati, St. Louis, Boston and Philadelphia.

AMERICAN LEAGUE:
Detroit, New York, Washington, Philadelphia, St. Louis, Chicago, Cleveland, Cleveland-Chicago and Boston.

Brooklyn and Pittsburgh were picked by several of the experts as the pennant winner in the National League but the Giants were rather generally chosen because the known strength of the team and its efficient management.

The one knock against the Giants was the law of averages against a team that will be called upon again to win more consecutive pennants than any other team has done in the major leagues. The Giants broke all precedents last year when they knocked off their fourth championships in a row and if there is any jinx it should have worked last year.

Washington received very few selections to repeat as the American League champions and some critics predicted that the team would have to fight to remain in the first division. These felt that the Senators were lucky to win last year when the Yankees took things too easily in the cocky belief that they could not be beaten.

The strength of the Yankees was rather generally admitted but it was recalled that the team is old, track-sore and less ambitious than the Detroit Tigers.

Pittsburgh was almost a unanimous choice for the runner up position in the National League and those who picked the Giants for the championship pointed out that the National League champions couldn't falter one step without being in danger of defeat.

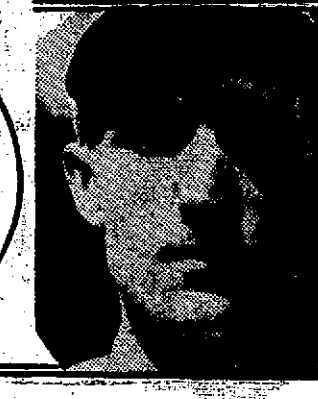

Opinion was almost evenly divided between New York and Washington as the second place club in the American League. One surprising prediction was made that the Boston Red Sox would be the runner up with every other vote assigning them to last place.

Officials, manager and owners were unanimous—as usual—in predicting that this would be baseball's biggest and best year, advance sale of tickets indicating that the scandal before the world's series last year had not injured the game. It was pointed out that Washington's popular victory last year had served to erase any bad marks that might have been made against the pastime.

Nehf On Mound

Boston, April 14—Warmer weather with probably increasing cloudiness was predicted for the opening game here today between the Giants and Braves. Art Nehf, McGraw's veteran southpaw, was expected to take the mound against Jess Barnes for the Braves.

Playing Managers Again in Vogue; Six on Major League Teams This Season

Not so many years ago playing-managers were conspicuous by their absence in the major leagues. They were virtually extinct. And it seemed that they were likely to pass from the picture for good.

But times have changed within the past few seasons, for playing leaders are again coming back into vogue. Last year three new pilots, who guide the destinies of their teams from the field, appeared. This campaign finds still another one.

Add to this quartet, Tris Speaker, who was appointed manager of the Cleveland Indians in July, 1919, and Ty Cobb, named Detroit chief-tain at the start of the 1921 chase, and it shows a total of six playing managers in the major leagues to-day.

ABOVE, LEFT TO RIGHT, SPEAKER, COBB, SISLER AND HARRIS; BELOW, COLLINS, BANCROFT.

Outside of Speaker and Cobb, the others are, Stanley Harris, Washington; George Sisler, Browns;

Dave Bancroft, Braves; and Eddie Collins, White Sox. This will be the second season as boss for Harris, Sisler and Bancroft. Collins is due to make his debut in the new role a few weeks hence.

Five of the leaders perform in the American League, Bancroft being the single National entry. Two of the six are outfielders, Speaker and Cobb, and the remainder cavort on the infield, Harris and Collins at second base, Sisler at first and Bancroft around short.

Cobb, Speaker and Collins rank as the three oldest regulars in point of service in the majors. Cobb is due to start his 21st campaign, Collins his 20th and Speaker his 18th.

Leader Look For a Big Year

By HENRY L. FARRELL
(United Press Sports Editor)

New York, April 14—Perhaps this day could not be recorded for history amply and officially without bringing out the traditional rubber-stamp for the notation—"King Baseball returned to the throne."

The 1925 baseball season opens today in the major leagues and the American Association and the International League starts tomorrow.

Baseball club owners are in an established business that does not need much hurrah exploitation, but they are willing to talk in the terms of the circus billboard poster—"Bigger and Better than ever"—when they discuss the prospects for this new season.

All of the major league clubs did

not make money last season. Some of them lost money, but there were reasons and these reasons always will have the same effect upon clubs that are down in the race.

"It has become almost a habit with the officials who have been in the game for another year to be optimistic in the spring when we arrive at the opening of the season," John A. Heydler, president of the National League said today.

"We have seen the game grow and become firmly established in the affection of the public that we do not figure when the season starts—"will it be a success?"—but we look for reasons why it should not be a success. We find no reason this year to have any doubts that baseball has the same popularity as it has been having. It is true that incidents have happened in the past that might have been harmful to the future of the game, but we believe those very incidents have made the game all the more secure, because drastic action always has been taken to correct any bad influences that might have been a menace."

There seems to be an opinion that the New York Giants are a cinch to win the pennant. I believe myself that the Giants are a powerful, well-organized and well-directed club, but I do not agree that no other team in our league has a chance for the pennant. I believe the Pittsburgh Pirates, the Brooklyn Robins, the Chicago Cubs and the Cincinnati Reds are to be ranked as possibilities. We have so many examples in the past to show that most anything can happen to "wreck a powerful club and inspire one that is comparatively inferior."

From a box-office standpoint much depends upon the weather during the early season and at best it is always a gamble. The weather is also an important physical factor in deciding the leaders during the early season.

Ban Johnson, president of the American League, looks for a very successful season in his organization.

"The success of the Washington Senators last season was a great boon for baseball and the attempt of the world's champions again to overcome strong opposition in the way of another pennant will make the season most interesting."

Most of the critics who visited the southern training camps returned with the opinion that the American League race is to be an open one and that most anything can happen. I believe myself that four clubs are standing for the opinion and I have other reasons that it would not be proper to withhold an opinion on the winner."

Boston—Stuffy McInnis, veteran first baseman, who has been a hold-out, has been released unconditionally by the Boston Braves.

TYGERS LOST FIRST 13 IN 1920 SEASON

About the worst start a major league team ever got was that made by the Detroit Tigers back in 1920, in Hughie Jennings' last season as the manager.

In its first 13 games that campaign, Detroit finished on the short end of the score. Somehow or other the team couldn't get going, despite the fact that it was considered to be in pretty good shape after the spring training trip.

Surely it was a disastrous beginning and put the club so far behind right off the bat that the Tigers remained with the trailing outfits all season.

SPORT CHATTER

Philadelphia—Five Nations will be represented in the annual Penn relay carnival to be held at Franklin Field on April 24 and 25. American entries have been made from 646 schools and colleges and other entries will represent New England, New Zealand, Canada and Cuba.

Princeton, N. J.—Fielding Yost, head football coach at Michigan, and Harry Emery, one of his assistants, are assisting Bill Roper with spring football practice at Princeton. Roper and several of his staff will go to Michigan next week to assist Yost.

New York—Under the direction of Charles Crowley, the Columbia football squad had its first workout today. It was the first session of a period of six weeks training.

New York—Joe Kirkwood, Australian golf star, announced that he is going to enter the British open golf championship. He is also going to play in the American championship.

Chicago—Augie Kieckhefer, Chicago, took two games from Clarence Jackson, Detroit, in the national three cushion billiard rounds here yesterday.

Cincinnati—The University of Illinois baseball team wound up its schedule of practice games here yesterday with a 4 to 3 victory over Cincinnati University.

Chicago—O. A. Faxon, Ill., amateur, won the Lincoln park gun club shoot here with a total of 147. It was a 150 target, 16 yard rise affair. George Landis, Milwaukee, and Stephen Fay, Chicago, tied for second.

Galesburg, Ill.—A special meeting of the "little 19," college conference at Jacksonville, Ill., April 19, has been called in an effort to keep the circuit intact. Withdrawal of Lombard college has created a stir among the members. Officials have indicated arrangements must be made to divide the conference in two groups.

Milwaukee—Joey Sangor, local lightweight, outpointed Pate Sarmento, Filipino, in ten rounds here last night. It was one of the fastest scraps ever staged here. Baby Graham won from Eddie Anderson.

THE KING OF THE NORTH 1925

One of the greatest thrilling rallies ever staged in the majors took place in the opening game of the 1921 season between Detroit and Milwaukee. For eight sessions that day the Brewers hit the offerings of the Tiger pitchers to all corners of the lot and apparently had the tilt sewed up with the score standing 13 to 4 when Detroit went to bat in the last half of the ninth. But a hectic rally, during which Frank Dillon, Tiger first baseman, made two doubles, enabled the Detroiters to count 10 runs and win the old ball game, 14 to 13.

TAIL LIGHTS OPEN SUNDAY

The Rushville Tail Lights, amateur baseball club, will open their season here Sunday, meeting the Nashville Cubs. The Tail Lights defeated this team last year, 4 to 3, and both teams appear to be evenly matched. The Cubs will start with the following line up, Rankin, H. Warth, J. Warth, Lucas, Wainwright, Kieth, McIlwain, Baker and Newbold.

NOTRE DAME ENTERS 28

Des Moines, Iowa, April 14—Notre Dame University has entered twenty-eight men in the Drake relays to be held here April 24-25. Nine track men have been entered from Creighton University and four from the Oklahoma Aggies.

Chicago—Willie Ritola, Finnish runner who has lowered 22 records during the present indoor track season, will go after the one mile record of his countryman, Paavo Nurmi, in the annual Chicago bankers' meet here Friday night. Other international stars are entered.

A GOITRE

Chiropractic Health Talk No. 210
By H. V. McCully, D. C., Ph. C.

is an incoordination in which there is an increase in the bulk of the thyroid gland.

There are several different forms of goitre. In the Serous Goitre the enlargement is caused by an accumulation of liquids or serums in the spaces of the glands. In the Fibrous Goitre there is an increase or overgrowth of the fibrous substance of the gland. In the Vascular Goitre the dilated and congested vessels contribute to the increase in size.

If the enlargement of the gland is internal rather than external it is known as an Inward or so-called Exophthalmic Goitre. A goitre may be on one side only or on both sides of the neck.

The enlargement causes pressure on the arteries, veins and nerves of the neck, causing a fast, palpitating heart, nervousness, tremor, protruding eyeballs, and inability to move the eyeballs. Symptoms that may be present are: Headache, stomach disorders, anemia and brownish spots on the skin.

Goitre is caused by pressure on spinal nerves at the spine which lead to and supply the thyroid glands. Our Chiropractic Spinal Adjustments relieve this pressure and Health follows:

GOITRE IS GONE

"For three years I had been troubled by a goitre. I began taking Chiropractic Spinal Adjustments and within a month noticed a big improvement. After a time all the enlargement was gone and I credit it all to Chiropractic—Miss Edna Goodwin, Chiropractic Research Bureau, Statement No. 1398G.

Delphian will convene Friday, April 17 in the parlors of the Elks Club, the guest of Mrs. Horatio Havens.

The Advance Literary Club shall meet with Mrs. H. V. Allman at her home in North Perkins street, on Friday afternoon, April 17.

The Shakespeare Club will hold its next meeting with Miss Henrietta Coleman. The date of this meeting will be announced later.

The members of the Research Literary club will meet, April 15, with Mrs. Mildred Harecourt.

The Press chairman is awaiting anxiously some signs of life from the County Federation. Bate—The Culture Club.

Mrs. Olive Miller entertained the American Literary club the afternoon of April 8th. Mrs. Lillian Jones discussed "People and Topography" and Mrs. Martha Grindle gave "Natural Resources" under the general topic of "We and the Land God Gave Us." The members responded to roll call with "An American Natural Wonder."

The Sunshine Club of Raleigh held its meeting of April 8th, with Mrs. Fred Bell. The affair was an all day pitch-in dinner meeting. The hostess was delegated to represent the organization at the annual county convention, April 9th.

Officers were elected as follows: President, Mrs. Cora Martin; vice president, Mrs. Fanny McBride;

secretary and treasurer, Mrs. Bandy Kennedy.

Mrs. Cora Martin proves again and again her excellency. The Federation must congratulate "Sunshine" on its honored member.

The Tuesday Study Club of Washington Township held its most recent meeting with Mrs. Eva Ertel, April 7. Song, "In the Gloaming," Responses, "Historical Land Marks." The club discussed, Parliamentary Law, "Our National Capital," was described by Mrs. Cora Myer. Current events and the meet-

ing closed with another song.

Mrs. Lowell Green and Mrs. Charles Wilson were hostesses to the Monday Circle at the Elks Club Monday afternoon, April 13. Mrs. Demarehus Brown of Indianapolis gave a highly entertaining word-picture of Spain, including in her lecture the progressive influence of the Moors' occupancy of that country, the vivid facts concerning her royalty and her present status compared with other nations.

The Forthright Study club held its regular meeting Monday evening with Mrs. Walter Ray in North Jackson street. Delegates were appointed for the district convention as follows: Mrs. Scott Hosier, Mrs. Lydia Urbach and Mrs. Paul Newhouse. In answer to the roll, members responded with quotations from Charles G. Norris. Mrs. Urbach gave his biography and reviewed his most recent work, "Bread."

Mrs. Marie VanMaire's election to the office of secretary of the County Federation, will certainly force Komenz into the limelight.

The Rush County convention, though not well attended by the local women, did boast of a most interested group—a group awake to its obligation and its possibilities. Nor did they come in vain for the program went farther than it ever has to awaken a club consciousness in club members to the fertile field in which we work.

The departmental reports were rich in suggestions and broad in scope. If our ideas of Better Homes, Memorial Tree movements, importance of publicity, American Citizenship and Civic activity were yet a little hazy, uncertainty surely changed to definite vision and those representatives can return to their groups next year with plenty of instruction and boost.

Then Mrs. Rumples' discourse on Feminine Citizenship was so well and definitely expressed as to inspire all who heard it with a renewed respect for our political rights.

The banquet and program were equal in goodness and abundance. A most splendid spirit prevailed among those gathered, and while we felt the need of numbers, we knew that we were better women for having gone. We had behaved in a manner true to our Club Collect and the reward of broadened ideas was ours.

Keep in mind the District convention at Connersville, April 20 and 21. The program is to be rich in

good music and food for thought. Connersville expects us. We mustn't disappoint her. And when we go, plan to exchange a most cordial spirit and receptive mind for the unquestionable hospitality and entertainment which awaits us.

ROTARY DIRECTORS SELECT OFFICERS

ship—Noble—and said the fine spirit that exists there is due in some measure to the influence of the Little Flatrock Christian church. He also called attention to the fact that Lowell Norris' precinct was the only one in the county outside of Rushville voting for a free public hospital when that question was up for a vote.

Dr. J. J. Rea, pastor of the Richmond First Presbyterian church and member of the Richmond Rotary club, spoke for a few minutes, telling some good Scotch stories that kept the Rotarians in an uproar. He put the question, "How far have you come?" wondering how many Rotarians were really applying the teachings of the club in everyday life.

Roy Waggoner described meetings of the Tucson, Arizona, Rotary club, which he recently attended, and said that he met many former Indianians there.

Miss Edna Lucas played a violin solo at the opening of the meeting, with piano accompaniment by Miss Betty Innis, and was well received.

Local Boy Contributes Success at Purdue Band

Lafayette, Ind., April 14—W. A. Beer, of Rushville, 2nd lieutenant, band adjutant of the famous Purdue Military band, is contributing in no small measure to a most successful season which is being enjoyed by the well known Purdue university musical organization. Mr. Beer plays the Clarinet. The Purdue Military band, in addition to providing military training for its members, proves an ideal training school for musicians, as P. S. Emrick, director, has a high reputation as a musical teacher. The band has been again obtained to play at the state fair next fall at Indianapolis. It is looked upon as one of the best organized and most capable military organizations of any college in the country.

NOTICE FOR IMPROVEMENT OF HIGHWAY IN RUSHVILLE TOWNSHIP, RUSH COUNTY, INDIANA.

NOTICE is hereby given that a petition has been filed in my office for the grading and paving with crushed stone with a bituminous binder, of a certain highway in Rushville Township, Rush County, State of Indiana, which petition is signed by Albert L. Allen et al, and is in words and figures as follows, to-wit:

State of Indiana, Rush County, SS: In the Matter of the Establishment and Improvement of a Public Highway in Rushville Township, Rush County, Indiana, by Albert L. Allen et al.

To the Board of Commissioners of Rush County:

We, the undersigned petitioners, represent and show to your honorable Board that this petition is signed by more than fifty (50) freeholders and legal voters of Rushville Township, Rush County, Indiana; that there is now an existing public highway over and upon the following described route to-wit:

Commencing on Eleventh street at Main Street in the City of Rushville, thence west over and along said Eleventh Street to a point where the same intersects the corporation line of the city of Rushville, Indiana, extending north along City street, thence west on the public highway along the north corporation line of Rushville, to a point where said highway intersects a line extending north along the west side of Spencer Street.

Your petitioners further represent that said public highway is

now established its entire length and breadth, being about thirty (30) feet in width and that the same connects at the East end thereof with an improved free macadam road, and that the same connects at the west end with an improved free macadam road.

That said Rushville Township does not contain an incorporated town or city of more than 30,000 inhabitants but does contain an incorporated city of about 6,000 inhabitants, to-wit: The City of Rushville, and that said highway sought to be improved runs into and through the corporate lines of City, and that said road sought to be improved is less than three (3) miles in length, and is all within the limits of Rushville Township; that the same should be improved by grading and draining the same to the width of the same as now laid out and paving the traveled portion thereof to a width of Twenty-four (24) feet with crushed stone and using a bituminous binder, and that when said improvement is made the same will be of great public utility and the cost thereof will be less than the benefits derived therefrom.

Main Street Owns the Oil

NOT LONG AGO, somebody made a play upon words by saying that "Main Street, not Wall Street, now owns the big industries." The observation was more accurate than its maker supposed.

The Standard Oil Company (Indiana) belongs to nearly 11 times as many stockholders in 1925 as in 1919. There are at present 49,277 owners of this Company, of whom not one owns as much as 6% of the whole. 15,264 of these owners are employees of the Company. It is the earnest desire of the Management of this organization that the number of stockholders in the future will multiply in considerably more than direct ratio to the growth of the Company.

It is to the advantage of the public that ownership of the Standard Oil Company (Indiana) steadily becomes more deeply rooted and more widely spread among the people as a whole.

It is to the advantage of society that customers, stockholders and employees should cease to be three separate groups with distinct interests in oil matters, and with frequently divergent viewpoints.

At the present time, thousands of people are at once patrons and employees of, and investors in, this great Company. This joint interest and ownership are giving a steadily increasing firmness and dependability to the service which this organization renders the public.

Much of the efficiency of the Standard Oil Company (Indiana)—much of its smooth functioning, its avoidance of labor difficulties, its freedom to adopt progressive methods—are due to the fact that Main Street owns the Company's oil; Main Street refines and distributes this oil, and Main Street uses the oil products. This organization is essentially democratic. It is financed by the people, operated by the people, and patronized by the people.

The Standard Oil Company (Indiana) in ownership, management, labor and patronage, is an integral part of modern American civilization—its products enter into the very texture of our daily life. When, therefore, we speak of the service of this organization to the public, we are speaking of something which is fundamental to society.

Especially does this apply to the ten Middle Western States in which this Company operates—and in which it has operated in such a manner as to have gained the respect, confidence and esteem of thirty million people.

SICK WOMEN OF MIDDLE AGE

Can Be Carried Comfortably Over The Critical Period by Lydia E. Pinkham's Vegetable Compound —Note Mrs. Headden's Case

Macon, Georgia.—"During the Change of Life I suffered with my whole right side and could not lie on my left side. I was in bed about two months and could not get up only as my mother would lift me. After doctoring without relief a man who was rooming with us told my son that Lydia E. Pinkham's Vegetable Compound cured his mother at the Change of Life, so I began taking your medicine. After taking it for two weeks I could get out of my bed by myself. I am now 53 years old and in better health and stronger than ever in my life. I have recommended the Vegetable Compound to many suffering women, young and old, and you may use my name anywhere as long as you please. I will be glad to answer any letters sent to me."

—Mrs. F. B. HEADDEN, 5 Holt Avenue, Macon Georgia.

In a recent country-wide canvass of Lydia E. Pinkham's Vegetable Compound, over 200,000 replies were received and 98 out of every 100 reported they had been benefited by its use. For sale by druggists everywhere.

Movies

Alice Terry At Princess

Rex Ingram, producer of "Seara-mouche" and "The Four Horsemen," has made another wonderful photograph in "The Arab," the Metro picture which opened yesterday at the Princess theatre. Ramon Novarro and Alice Terry have the principal roles, that of a Shiek's son, and a missionary's daughter. The young Bedouin falls in love with the Christian girl, and through his tribe saves her and her father from intended massacre by the Mohammedans.

The story, taken from the stage play written and acted by Edgar Selwyn, is ideal for the famous trio, for Ingram shows his genius in an entirely new form of picture, and Miss Terry and Mr. Novarro look and act better than ever. The film was made in Northern Africa, and the natural locations are worth a trip to the theatre alone. John F. Seitz was the photographer.

Last Showing Tonight

The final showings of the Paramount picture, "The City That Never Sleeps," James Cruze's latest production featuring Richard Corbett, Louise Dresser, Kathryn Williams and Virginia Lee Corbin, which opened at the Castle theatre on Monday, will be held there this afternoon and evening.

The story, an adaptation of a magazine serial by Leroy Scott, is, as you could easily guess, one of New York, with all its romance and night life. It is a heart-breaking tale of a mother's love for her baby daughter. She sacrifices herself that the child might have every advantage, only to receive in return, abuse. Leave it to Cruze to tell this delightfully human story in A-1 style. It was to be expected of him after such knockouts as "The Covered Wagon," "Merton of the Movies," etc. And he's done it.

Pierre Gendron, James Earley, Ben Hendricks and baby Vendell Darr, have prominent roles in the strong supporting cast.

Mrs. Isaac Webb of Rushville is spending this week with Mrs. Ertle Harcourt.

Miss Maurine Tompkins, a student at DePauw University, is spending the spring vacation with her parents, Mr. and Mrs. Rush Tompkins.

Mr. and Mrs. Everett Botteroff had as their Sunday dinner guests, Mr. and Mrs. Jim McKay and daughter Iris, Mrs. Anna Whaley and Miss Opal Selby.

Mr. and Mrs. Bob Innis of Rushville, Mr. and Mrs. Harry Innis and Miss Agnes Stewart of Indianapolis were the Sunday guests of Mr. and Mrs. P. T. Innis.

Mr. and Mrs. Leslie Miller and family of Rushville and Mr. and Mrs. Price of Carthage were the Sunday guests of Mr. and Mrs. J. Senter.

Mrs. Ira Holbert and son of Metamora, Mr. and Mrs. Arthur Shilber and daughter and Mr. and Mrs. Roy Holbert and daughter were the Sunday guests of Mr. and Mrs. Everett Piper.

Mr. and Mrs. Raymond Whitinger and daughters Barbara and Bernice were the Sunday guests of Mr. and Mrs. Everett Piper.

Mr. and Mrs. Raymond Whitinger and daughters Barbara and Bernice were the Sunday guests of Mr. and Mrs. Jimmie Whitinger.

Mrs. Dewy Hagen and son Jules and Miss June Ellen Sweet were business visitors in Laurel Friday.

GENERAL Mark of the Leading Tire Store

Lung Pressure Tires?

You can't run a tire on lung pressure. But Generals run on lower air pressure than any other make—and this applies to all sizes—Regular as well as Balloons. The successful use of low pressure depends upon a construction that is able to withstand the heating-up and wearing effect of the increased bending and straining under low pressure. This shows why General's leadership in low-pressure tires, not only in Balloon sizes, but in all regular sizes, goes hand in hand with General's greater freedom from internal friction.

THE OLD HOME TOWN By Stanley

Dry Cleaning Protects the Health of Nation

Are Your Clothes Free of Dust, Grease and Germs? You can't clean clothing with a brush or a whisk broom—they must be dry cleaned so they can be put through a scientific process which will insure absolute cleanliness. And without harm to the cloth in any way.

Send Your Clothes to the Dry Cleaners Regularly.
